
CE 202: Introduction to Civil Engineering

Course Code	CE 202
Course Name	Introduction to Civil Engineering
L-T-P-C	1-0-0-1
Prerequisites	None
Intended for	UG Core
Mutual Exclusion	None
Approval	50th BoA (Jul 2023), in the B.Tech Civil Engineering curriculum; 52nd BoA (Nov 2023)

Course Contents

- **Module 1:** A brief history of civil engineering, a brief introduction to different subbranches of civil engineering, mega structure documentary show, a brief overview of the role and responsibilities of a civil engineer and the types of projects they work on. A brief discussion on civil engineering ethics. [2 Lectures]
- **Module 2:** In this module, one faculty (based on the internal discussion) from each of the following domain will come and talk on past, present, and future of research, industry and technological innovations in their domain (one hour each): (i) Structural Engineering, (ii) Geotechnical Engineering, (iii) Transportation Engineering, (iv) Geoinformatics and Survey, (v) Earth Sciences, (vi) Water and Hydrology Engineering, (vii) Environmental. Engineering. [7 hrs]
- **Module 3:** A visit to all the existing civil engineering laboratories of IIT Mandi including the construction activities going on in IIT Mandi. A discussion on recent advancement in Civil Engineering and role of AI/ ML and IOT etc. in Modern Civil Engineering. [3 hrs]
- **Module 4:** A field visit or an external expert talk as per the availability. A panel discussion on various career opportunities for Civil Engineering graduates. [2 hrs]
