
CE 587: Industrial/Research Internship

Course Code	CE 587
Course Name	Industrial/Research Internship
L-T-P-C	1-0-0-1
Prerequisites	Mini Project
Intended for	PG (M. Tech. in Structural Engineering)
Distribution	Discipline Core
Semester	odd
Approval	16th Senate (Apr 2018), in the M.Tech Structural Engineering curriculum; recommended by the 26th BoA (Oct 2018)

Preamble

This course has been designed to give an exposure of industrial/research work to the first year MTech Structure students. In this course, the students will either visit the industry or join under any faculty member who offers the internship either within the institute or outside the institute. This course will start at the end of the even semester (February-July) and will continue till the beginning of odd semester (August-December). The project should have relevance to structural engineering. The registration will begin in May-June and students need to register before the start of summer vacations. They will do the internship during summer break and their evaluation will be done during the odd semester (August-December). The evaluation will be in the form of presentation and a report. The grades will be added in the third semester mark sheet.

Course Modules

There is no regular lecture hours or practical classes for this course as it will be carried out during summer vacations. The students will have to work on their specific projects on their own in a self-learning mode. The supervisor will give necessary inputs or suggestions throughout the work.

Text Books

There will be no specific textbook for this course.

References

There will be no specific reference book for this course. Students are supposed to learn to review literatures.
