

DP 502P: Design Practicum II

Course Code	DP 502P
Course Name	Design Practicum II
L-T-P-C	0-0-4-2
Prerequisites	DP 503P
Intended for	M.Sc. (Chemistry)
Distribution	Core
Approval	10th Senate (Jun 2016)

Course Description

This course is offered to the second semester M.Sc. (Chemistry) students, wherein each student is assigned to a faculty mentor and performs a short research project under their guidance. The students do literature survey and short research works on the assigned research problem and present their works in open seminars.

Course Evaluation

Two seminars (mid-term and final presentations) of 50% each evaluated by an internal committee.
