
DP 512P: Industrial/Research Internship

Course Code	DP 512P
Course Name	Industrial/Research Internship
L-T-P-C	1 credit (pass/fail)
Intended for	M.Tech. in Mechanical Engineering with Specialization in Energy Systems and M.Tech. in Energy Engineering with Specialization in Material programmes (applicable for batches admitted from August 2018 onwards)
Revised	30th BoA (Jun 2019) and 22nd Senate (Jun 2019) - renamed from “Industrial Internship”

Course Description

Senate approved that Students are encouraged to find industry internship and problems that can be converted to joint industry academia project which can be carried out as year long M.Tech. project according to already approved semester exchange rules for M.Tech. students. If students are unable to find industrial internship, then they may undergo a Research Internship with a guide designated by FA for 6 weeks at IIT Mandi or other similar academic institute.

Performance of students will be assessed by a committee formed by FA at the completion of industrial/research internship for 1 credit for pass/fail grades. The student will receive scholarship during this internship period from IIT Mandi (if not receiving from industry/academia). This new course “DP 512P (Industrial/Research Internship)” of one credit will replace the existing course “DP 512P (Industrial Internship)” of one credit.
