Preamble

In the era of data-driven decision-making and artificial intelligence, advertising and brand management are undergoing transformative changes. This course is designed to provide students with a comprehensive understanding of the key concepts and practices essential for crafting successful advertising strategies and brand communications. Students will learn to design, implement, and evaluate innovative marketing campaigns that not only build strong brand equity but also drive measurable business performance. This course equips future leaders to make informed, impactful decisions in the dynamic landscape of modern marketing. The course aims to design, implement and evaluate the effectiveness of advertising efforts for better ROI, and explore methodologies to design and manage brand identity, positioning, and equity.
