4.3	C3 Section 4 “Humanities Course Basket” stops at February 2020	18
4.4	C4 Section 5 “Design and Innovation Practicum”: old courses and a dead link	19
4.5	C5 Section 6 “Minor Program”: five minors missing, Robotics core out of date	22
4.6	C6 Section 7 “Double Major Programme”: one paragraph from 2021	27
4.7	C9 Section 2: old grading system shown as the current one	29
4.8	C7a Course table: recoded, discontinued or never-approved courses	31
4.9	C7b Course table: 43 codes listed more than once	33
4.10	C7c Course table: old and misspelt titles	34
4.11	C7d Course table: 578 approved courses are missing	36
4.12	C7e Course table: two code styles (BE-203 and BE203)	39
4.13	C8 New section 9: Mutually Exclusive Courses	40
5	Degree Programs page	41
5.1	D1 UG programme list: mixed old and 2023 curricula, nothing for 2024-2026	41
5.2	D2 PhD and some PG programmes have no curriculum link	47
6	Other pages	48
6.1	O1 Orientation fee table: payment date says 2025	48
6.2	O2 Internships: SHSS list links the 2025 file	49
6.3	O3 Ordinances page: UG Ordinance 2026 is missing	50
6.4	O4 Scholarships page: no eligibility rules, and broken table rows	51
	Appendices	54
	Appendix A Courses to mark as replaced, or remove	54
	Appendix B Codes listed more than once	55
	Appendix C Titles to correct	57
	Appendix D Approved courses to add	58
	Appendix E Courses to confirm before adding	69

Appendix F Points to confirm in the source documents

73

F.1	Minutes and the UG Curriculum booklet	73
F.2	UG Ordinance 2026, UG Handbook 2026 and the booklet	74
F.3	The website	74

1 How to use this document

This document lists 26 changes to the Academic Section website. Each change is one numbered entry with:

1. an **ID** (S = every page, H = home, C = courses, D = degree programmes, O = other pages) and the **page address**, **menu path** and **place on the page**;
2. **What is wrong**, with a screenshot of the current page. The problem is outlined in **red**;
3. **What it should be**, with a screenshot of the same page after the change, the new part outlined in **green**. These screenshots are previews: the new code was applied in a browser to a saved copy of the page, and nothing has been changed on the live site;
4. the **code to use**: the HTML that replaces the old part, written with the site's own Bootstrap classes;
5. the **commit** that carries the change in the working repository, named by its short hash. Its message says in one line what was done, so a change can be taken, reviewed or dropped on its own.

Status of an entry: **Ready** — the content and code are final once the linked documents are approved; **Link fix** — only a link address changes, so the page looks the same and the old and new addresses are given instead of a second screenshot; **Needs input** — the office has to supply or confirm the content first.

Documents to upload. Several entries link documents that are not on the site yet. Suggested file names:

- [/pdf/admissions/UG_Curriculum_Batch2023-2026.pdf](#): the UG Curriculum booklet (DC Curriculum, batches 2023–2026). Changes 4.2, 5.1;
- [/pdf/courses/Minor_Programmes.pdf](#): the Minors booklet. Change 4.5;
- [/pdf/courses/Mutually_Exclusive_Courses.pdf](#): the Mutually Exclusive Courses booklet (confirmed entries only). Change 4.13;
- [/files/IIT_Mandi_Course_Descriptions_2026.pdf](#): the rebuilt course-description booklet. Change 4.1;
- [/pdf/senate_courses/<CODE>.pdf](#): one syllabus PDF for each course added to the course table (Appendix D).

The three booklets were placed before the 66th BoA as annexures; upload them only after approval. The links in the code assume these names; if other names are used, change the links to match. `course_table_changes.csv` (next to this document) has every row to add, mark or correct in the course table, for whoever maintains that table.

The working repository. The pages of the site, the changes and this document are kept in a private git repository, `academics-iitmandi-website`. Its main branch holds the site as it stands; the branch `update/website-october-2026` holds the changes, one commit each, in the order of this document, and is open as a pull request. The commit hash is given with every entry and in the table above, so the web team can match an entry to its code, review the changes one at a time and merge only those that are approved. The repository also carries the documents the new links open, under the paths they will have on the server.

How the pages were checked. Every page linked from the menu was saved on 2 October 2026 and read as the browser shows it, so text hidden in HTML comments was ignored. Course data were compared with the course register built from the minutes of the 1st–65th BoA and 1st–49th Senate (the 40th, 43rd and 46th Senate minutes are not available). The screenshots were made from the saved pages with the site's own style sheets. The links to the 735 course syllabus PDFs were not opened one by one. The curriculum, minor and mutual-exclusion booklets and the course register that this document draws on were prepared over the preceding weeks for the 66th Board of Academics.

1.1 All changes

ID	Page	Change	Priority	Status	Commit	Page
S1	all / home	Footer quick links that give “404 Not Found”	High	Link fix	7491e77	4

C7e	courses	Course table: two code styles (BE-203 and BE203)	Low	Ready	22ee465	39
C8	courses	New section 9: Mutually Exclusive Courses	Medium	Ready	5472c55	40
D1	degreeprograms	UG programme list: mixed old and 2023 curricula, nothing for 2024-2026	High	Ready	be69566	41
D2	degreeprograms	PhD and some PG programmes have no curriculum link	Low	Needs input	---	47
O1	orientation	Orientation fee table: payment date says 2025	Medium	Ready	e67b386	48
O2	internships	Internships: SHSS list links the 2025 file	Low	Link fix	8253a30	49
O3	ordinances	Ordinances page: UG Ordinance 2026 is missing	High	Ready	dae3d49	50
O4	scholarships	Scholarships page: no eligibility rules, and broken table rows	Medium	Ready	70e46ab	51

21 entries are ready, 3 are link fixes and 2 need input from the office or a school.

2 Site-wide: menu and footer

These appear on every page of the site, so one fix in the common template corrects all pages.

2.1 S1 Footer quick links that give “404 Not Found”

Page	https://academics.iitmandi.ac.in/
Menu path	Every page
Where on the page	Footer, the three “Quick Links” columns
Priority / status	High Link fix
Commit	7491e77 footer: point the quick links to iitmandi.ac.in (S1)

What is wrong

Eight quick links (NIRF, ARIIA, How to Reach, IIT Mandi in the news, Press Releases, Rankings, Right to Information, Holiday List) open “404 Not Found”, and Hindi Patrika opens “403 Forbidden”.

They were copied from the main IIT Mandi website but kept the academics.iitmandi.ac.in address, where these pages do not exist.

Current — problem outlined in red

What it should be

Point each link to the same path on iitmandi.ac.in (all checked on 1 Oct 2026: they open). The bus schedule on the academics site still opens, but the main-site copy is the one that is kept up to date.

Link now (broken)	Link to use

  <a href="https://iitmandi.ac.in/holidaylist">Holiday List</a>
</li>
<li>
  <a href="https://iitmandi.ac.in/files/bus_schedule.pdf">Institute Bus Schedule</a>
</li>
```

2.2 S2 Footer phone link dials a different number

Page	https://academics.iitmandi.ac.in/
Menu path	Every page
Where on the page	Footer, first column, “Contact Us”
Priority / status	Medium Link fix
Commit	3177d11 footer: give each contact number its own tel: link (S2)

What is wrong

The footer shows “+91-1905-267755, 267073”, but the link behind it dials +91-1905-267015 (tel:+91-1905-267015). On a phone, tapping the number calls the wrong office.

Current — problem outlined in red

What it should be

Give each number its own tel: link.

Link now (broken)	Link to use
-------------------	-------------

tel:+91-1905-267015

tel:+911905267755 and tel:+911905267073

Code to use. Replaces the single tel: link in the footer.

```
Contact Us:
<a class="text-white" href="tel:+911905267755">+91-1905-267755</a>,
<a class="text-white" href="tel:+911905267073">267073</a> <br>
```

2.3 S3 Copyright year is 2024

Page	https://academics.iitmandi.ac.in/
Menu path	Every page
Where on the page	Bottom strip of the footer
Priority / status	Low Ready
Commit	668e55b footer: update the copyright year to 2026 (S3)

What is wrong

The footer says “© 2024 IIT Mandi. All rights reserved.”

© 2024 IIT Mandi. All rights reserved.

Current — problem outlined in red

What it should be

Change the year to 2026. If the page is a Laravel Blade template, `{{ date('Y') }}` keeps it current without further edits.

© 2026 IIT Mandi. All rights reserved.

Proposed — change outlined in green (preview, not live yet)

Code to use. The copyright line.

```
<p>&copy; 2026
  <a href="https://academics.iitmandi.ac.in">IIT Mandi</a>. All rights reserved.
</p>
<!-- or, in a Blade template: <p>&copy; {{ date('Y') }} ... -->
```

2.4 S4 “Research” menu item opens the home page

Page	https://academics.iitmandi.ac.in/
Menu path	Faculty Corner > Research
Where on the page	Main menu, Faculty Corner drop-down
Priority / status	Low Ready
Commit	4e82a8e menu: remove “Research” from Faculty Corner (S4)

What is wrong

Faculty Corner > Research links to <https://academics.iitmandi.ac.in> (the home page of this site) and opens it in a new tab.

Current — problem outlined in red

What it should be

Remove the item, or link it to the research page the office wants (e.g. the Associate Dean Research page). The proposal below removes it.

Proposed — change outlined in green (preview, not live yet)

Code to use. The Faculty Corner list with the Research item removed.

```
<!-- Faculty Corner drop-down after the change -->
<ul class="list-unstyled">
  <li><a href="https://insite.iitmandi.ac.in/notifications/808/view" target="_blank">Courses Information</a></li>
</ul>
```

2.5 S5 Ordinances page is not in the menu

Page	https://academics.iitmandi.ac.in/
Menu path	Student Corner
Where on the page	Main menu, Student Corner drop-down
Priority / status	Medium Ready
Commit	2f20c01 menu: restore the Ordinances item under Student Corner (S5)

What is wrong

The page /ordinances (B.Tech., M.Tech./M.Sc., MA, Ph.D. ordinances) exists, but its menu item is commented out in the HTML, so students cannot reach it from the menu.

Current — problem outlined in red

What it should be

Restore the menu item, next to UG Handbook.

Proposed — change outlined in green (preview, not live yet)

Code to use. Add this item to the Student Corner list, after UG Handbook (the old line is still in the HTML as a comment).

```
<li><a href="https://academics.iitmandi.ac.in/ordinances">Ordinances</a></li>
```

3 Home page

3.1 H1 Staff list: “Nikhil Kumar” appears twice

Page	https://academics.iitmandi.ac.in/
Menu path	Home
Where on the page	“Academics Staff” tab, staff cards
Priority / status	Medium Needs input

What is wrong

Two cards carry the name Nikhil Kumar and the same e-mail. The second card has a placeholder photo (alt text “Narender”) and different duties: scholarship, fellowship, fee queries and bonafide certificates.

The second card probably belongs to another staff member whose name was never filled in.

Nikhil Kumar
Designation: Junior Assistant
Email: nikhilkumar@iitmandi.ac.in
Primary Role and Responsibility:

- Admission/Queries:PG/PhD/JDP/JRDP/MTest (R) / Dual Degree
- Semester Long Internship,PG Bonafide, Migration,PG Internship

Amandeep Singh
Designation: Junior Assistant
Email: amandeep_singh@iitmandi.ac.in
Primary Role and Responsibility:

- Verification of Result

Akshay Rana
Designation: Junior Assistant
Email: akshay_rana@iitmandi.ac.in
Primary Role and Responsibility:

- Thesis related issues

Atul Sharma
Designation: Junior Assistant
Email: atulsharma@iitmandi.ac.in
Primary Role and Responsibility:

- Preparation of data for ABC and Digi

Current — problem outlined in red (part 1 of 2)

Saurabh Angiras
Designation: Junior Assistant
Email: saurabhangiras@iitmandi.ac.in
Primary Role and Responsibility:

- Bonafide for PG/PhD Students, General Queries for PG/PhD Students

Anuj Thakur
Designation: Office Assistant
Email: anujthakur@iitmandi.ac.in
Contact: 267754
Primary Role and Responsibility:

- Result: PG/Ph.D./M. Tech (R)/DD/UD Students
- Transcript/Grade Card (Except UG)

Nikhil Kumar
Designation: Junior Assistant
Email: nikhilkumar@iitmandi.ac.in
Contact: 267754
Primary Role and Responsibility:

- Scholarship, Fellowship
- Fee Query, Bonafide Certificate

Current — problem outlined in red (part 2 of 2)

What it should be

The office should say whose card the second one is and give the correct name, e-mail and photo. If both duties are Nikhil Kumar's, merge them into one card.

Needs input: the office has to supply or confirm the content before this change can be made, so no proposed screenshot or code is given.

3.2 H2 Announcements are from the previous admission cycle

Page	https://academics.iitmandi.ac.in/
Menu path	Home
Where on the page	Right-hand “Announcements” box
Priority / status	Low Ready
Commit	e3d96db home: refresh the announcements (H2)

What is wrong

The box shows the Summer Internship 2026 call (applications closed on 30 March 2026), the 2026 reporting schedule for new PG/PhD entrants and UG Orientation 2026, all still marked NEW.

Announcements

- New** Reporting Schedule for I-MBA / MA/ MBA/ MSc/ M.Tech/ I-PhD/ PhD/ MS(R)/ MTech(R) (New Entrants) Students 2026
- New** Applications are invited from eligible students for the Summer Internship Programme 2026.
- New** Revised Charges for Obtaining Documents from the Academic Section.
- New** UG Orientation 2026.

Current — problem outlined in red

What it should be

Show what students need now: the UG Ordinance 2026, the UG Handbook 2026, the Aug-Nov 2026 course list and timetables, and the Academic Calendar 2027; keep the document-charges notice. This is a proposal; the office decides the final list.

Announcements

- New** UG Ordinance 2026: rules and regulations for B.Tech. and B.S. programmes.
- New** UG Handbook 2026 for B.Tech./B.S. students admitted from AY 2026-27.
- New** Course list and timetables for Aug-Nov 2026.
- New** Academic Calendar 2027.
- New** Revised Charges for Obtaining Documents from the Academic Section.

Proposed — change outlined in green (preview, not live yet)

Code to use. New rows of the announcements table (replace the current <tbody> rows).

```

    </td>
</tr>
```

4 Courses page

Student Corner > Courses (<https://academics.iitmandi.ac.in/courses>). The page is a list of nine collapsible sections; the screenshots show the sections opened.

4.1 C1 Course booklet is the June 2025 compilation

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “1. UG/PG Courses details for previous semesters (Archives)”, last row “Download Course Booklet”
Priority / status	High Ready
Commit	b8dfaac courses: link the 2026 course-description booklet (C1)

What is wrong

“Download Course Booklet” opens /files/iit_mandi_courses.pdf. The newest copy of that compilation we hold is dated 26 June 2025, so it lacks every course approved at the 57th-65th BoA (e.g. AR-520 to AR-527, DS-314 to DS-418, the new Quantum, Chemical and Agricultural Engineering courses).

The row also sits inside the “Archives” section, where students do not look for it.

Course list for previous semesters (Aug. Dec. 2020)	Click Here
Revised Academic Calendar (Feb.- June 2021, B.Tech 1st year, Aug.-June 2021-22)	Click Here
Course list according to CCM Chairpersons (Aug-Dec, 2020)	Click Here
Download Course Booklet	Click Here

Current — problem outlined in red

What it should be

Upload the new Master Compilation of Courses (Master Course List/Master_Compilation/Master_Compilation_of_Courses.pdf, built on 1 Oct 2026 from every BoA/Senate minutes) after the 66th BoA and link it here. Better still, move the row to the top “Course Details” box.

Course List for Even Semester (Aug.- Dec. 2021)	Click Here
Revised Academic Calendar (Feb.- June 2021, B.Tech 1st year, Aug.-June 2021-22)	Click Here
Course list according to CCM Chairpersons (Aug-Dec, 2020)	Click Here
Download Course Booklet (Senate/BoA approved course descriptions, updated 2026)	Click Here

Proposed — change outlined in green (preview, not live yet)

Code to use. Replaces the “Download Course Booklet” row (the file name is a suggestion).

```
<tr>
  <td scope="row" class="text-primary"><b>Download Course Booklet (Senate/BoA approved course descriptions, updated 2026)</b>
</td>
<td>
  <a class="btn btn-dark" href="https://academics.iitmandi.ac.in/files/IIT_Mandi_Course_Descriptions_2026.pdf" target="_blank">
    Click Here
  </a>
</td>
</tr>
```

4.2 C2 Section 3 “Common Core” shows the curriculum of 2016-2022

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “3. B. Tech. Curriculum for Common Core Courses”
Priority / status	High Ready
Commit	06cb730 courses: replace the 2016 common core with the current credit structure (C2)

What is wrong

The section lists the old common core: IC 110, IC 111, IC 210, IC 130/130P, IC 150/150P, IC 250, IC 160/160P, IC 260, IC 141/141P, IC 142, IC 242, the five HSS “streams” and the old Design and Innovation Practicum credits. None of this applies to batches 2023-2026.

It has no link to the current curriculum, and the heading “A Perspective on IIT Mandi’s B. Tech. Curriculum” is misspelt.

3. B. Tech. Curriculum for Common Core Courses

Requirement for Award of B.Tech (Honors) Degree

A Perspective on IIT Mandi's B. Tech. Curriculum

Discipline-wise Course Distributions

◦ Courses from

Mathematics (TOTAL: 9 CREDITS)

- Engineering Mathematics, IC 110, 2.5-0.5-0-3
- Linear Algebra, IC 111, 2.5-0.5-0-3
- Probability, Statistics and Random Processes, IC 210, 2.5-0.5-0-3

Physics (TOTAL: 8 CREDITS)

- Mechanics of Particles and Waves, IC 121, 2.5-0.5-0-3
- Foundations of Electrodynamics, IC 221, 2.5-0.5-0-3
- Physics Practicum/Practicals, IC 222P, 0-0-3-2

Chemistry (TOTAL: 5 CREDITS)

- Applied Chemistry for Engineers, IC 130, 3-0-0-3
- Chemistry Practicum, IC 130P, 0-0-3-2

Biotechnology And Life Sciences (TOTAL: 3 CREDITS)

- Understanding Biotechnology and its Applications, IC 136, 3-0-0-3

Current — problem outlined in red (part 1 of 4)

TOTAL CORE COURSE CREDITS FROM BASIC SCIENCES: 25

◦ Courses from Common Engineering

Computing And Electrical Engineering

- Computation for Engineers, IC150, 3-0-0-3
- Computation for Engineers Lab, IC 150P, 0-0-3-2
- Data Structure and Algorithms, IC250, 1-0-3-3
- Electrical Systems Around Us, IC160, 2.5-0.5-0-3
- Electrical Systems Lab, IC160P, 0-0-3-2
- Applied Electronics, IC161, 3-0-0-3
- Applied Electronics Lab, IC161P, 0-0-3-2
- Signals and System, IC260, 2.5-0.5-0-3

TOTAL CORE COURSE CREDITS FROM COMPUTING AND ELECTRICAL ENGINEERING: 21

◦ Mechanical Engineering And Material Sciences

- Graphics for Design, IC140, 2-0-3-4
- Product Realization Technology, IC141, 2-0-0-2
- Product Realization Technology Lab, IC141P, 0-0-3-2
- Engineering Thermodynamics, IC142, 3-1-0-4
- Mechanics of Rigid Bodies, IC240, 1.5-1.5-0-3
- Materials Science for Engineers, IC241, 3-0-0-3
- Continuum Mechanics, IC242, 2.5-0.5-0-3

TOTAL CORE COURSE CREDITS FROM MECHANICAL ENGINEERING AND MATERIAL SCIENCES =21

Current — problem outlined in red (part 2 of 4)

◦ **Courses from Humanities and Social Sciences**

The Basic Program is divided into five broad streams as follows:

Creative Understanding

- Art and Architecture, HS102, 0-0-2-1
- Dance and Drama, HS103, 1-0-0-1
- Music, HS104, 1-0-0-1

International Language Competence

- Introduction to English Literature, HS151, 3-0-0-3
- German I, HS342, 3-0-0-3
- German II, HS352, 3-0-0-3
- German III, HS362, 3-0-0-3

Communicative Competence

- Basic Communication Skills, HS105, 3-0-0-3
- Public Speaking and Debating Skills, HS206, 3-0-0-3
- Policy Analysis and Advocacy Skills, HS301, 3-0-0-3

Social Competence

- Principles of Economics, HS202, 3-0-0-3

Current — problem outlined in red (part 3 of 4)

- Principles of Economics, HS202, 3-0-0-3
- Understanding Society, HS203, 3-0-0-3
- Introduction to Political Science, HS204, 3-0-0-3

Managerial Competence

- Financial Accounting, HS205, 3-0-0-3
- Organizational Management, HS304, 3-0-0-3
- Organizational Behavior, HS403, 3-0-0-3

TOTAL CORE COURSE CREDITS FROM HUMANITIES AND SOCIAL SCIENCES: 13

TOTAL OPTIONAL CREDITS FROM HUMANITIES AND SOCIAL SCIENCES: 5

The subjects taught under these headings are meant to help the students achieve fluency in language, develop self-confidence by understanding man in relation to society and the environment, voice actively social concerns to make informed personal choices and take reasoned decisions at the workplace.

Students are invited to take at least one course from each of the five broad streams listed here.

For each stream, there is a Program Coordinator from the School to help you make the right choices.

◦ **Design and Innovation Practicum**

- Reverse Engineering, IC101P, 0-0-3-2
- Design Practicum, IC201P, 0-0-6-4
- Interdisciplinary Socio-Technical Practicum, DP301P, 0-0-6-4
- Major Technical Project, DP401P, 0-0-12-8

TOTAL CORE COURSE CREDITS FROM DESIGN & INNOVATION PRACTICUM =6

TOTAL OPTIONAL CREDITS FROM DESIGN & INNOVATION PRACTICUM =12

Current — problem outlined in red (part 4 of 4)

What it should be

Replace the whole section with the current credit structure (UG Ordinance 2026, Tables 2 and 5, rules 4.2.5 and 4.2.6) and the Institute Core courses (UG Curriculum booklet, batch 2026), and link both documents.

Syllabus links point to the existing files where the site has them. Eight more (IC-161, IC-161P, IC-222P, IC-272, IC-253, IC-181, IC-182, HS-112) are cut from the Master Compilation of Courses and need to be uploaded; IK-101 has no syllabus on record yet.

3. B.Tech. Curriculum: Credit Structure and Institute Core (Batch 2023 onwards)

The curriculum below applies to **B.Tech. and B.S. students of batch 2023 onwards**. A B.Tech. needs **160 credits** (Electrical Engineering: 161) and the B.S. in Chemical Sciences needs **163 credits**. The rules are in the [UG Ordinance 2026](#) and the semester-wise plan of every programme is in the [UG Curriculum booklet \(batches 2023–2026\)](#).

B.Tech. credit structure (UG Ordinance 2026, Table 2)

Basket	Credits
1. Institute Core courses	60
IC Compulsory (includes the 2-credit vacation internship)	39
IC Basket	6
Indian Knowledge Systems (IKS) + Humanities and Social Sciences (HSS)	15
2. Discipline Core and Discipline Electives	66
Discipline Core / Discipline Electives (split differs by branch)	min. 33 / min. 12
3. Elective courses	34
Major Technical Project (MTP-1 + MTP-2) or equivalent Discipline Electives	8
Interactive Socio-Technical Practicum (ISTP) or equivalent Free Electives	4
Free Electives	22
Total	160

- Electrical Engineering: Discipline Core + Electives 72 and Free Electives 17 (161 in all).
- B.S. in Chemical Sciences (Table 5): IC Compulsory 31, IC Basket 6, IKS + HSS 12, Discipline Core 62, Discipline Electives 26, Free Electives min. 15, Research Communication and Projects min. 14 (163 in all).
- At most 20 HSS/IKS credits count towards graduation (Ordinance 4.2.6). A student also completes the NCC/NSO/NSS/Hiking & Trekking requirement.
- IC-102P is compulsory for all UG students except batch 2024. IC-202P is compulsory for all except Bioengineering, Engineering Physics, Civil Engineering and B.S. Chemical Sciences (Ordinance 4.2.5).

Proposed — change outlined in green (preview, not live yet) (part 1 of 3)

4.3 C3 Section 4 “Humanities Course Basket” stops at February 2020

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “4. Humanities Course Basket”
Priority / status	Medium Ready
Commit	76f08ef courses: describe IKS + HSS for batch 2023 onwards (C3)

What is wrong

Only two baskets are linked: “Revised Version - modified wef February 2020” and “Older Version - wef odd semester 2016-17”. Batches 2023 onwards follow the IKS + HSS structure, which is not mentioned.

Current — problem outlined in red

What it should be

Say how IKS + HSS works from batch 2023 (credits from the UG Ordinance 2026; first-semester choices from the UG Curriculum booklet) and keep the two old baskets as an archive. If SHSS publishes a current elective basket, link it here as well.

4. Humanities and Social Sciences (IKS + HSS)

From batch 2023 onwards, Humanities and Social Sciences are part of the **IKS + HSS** basket of the Institute Core: **15 credits** for B.Tech. and 12 for the B.S. in Chemical Sciences (see section 3).

- In the first semester every student takes one of IC-181 Indian Knowledge Systems / IC-182 History of Science and Technology, and one language course (HS-108 Basic English for Engineers, HS-342 German I, HS-112 Japanese Language I or IK-101 Sanskrit Language - Level 1).
- The remaining credits come from HSS and IKS electives. The electives offered in a semester are in that semester's course list.
- At most **20 HSS/IKS credits** count towards graduation; credits beyond this limit are not counted (UG Ordinance 2026, 4.2.6).
- HSS/IKS elective credits may count towards a Minor where the Minor allows it (Ordinance 10.4).

Archive (batches up to 2022)

- [Humanities and Social Sciences basket \(w.e.f. February 2020\)](#)
- [Humanities and Social Sciences basket \(w.e.f. odd semester 2016-17\)](#)

Proposed — change outlined in green (preview, not live yet)

Code to use. New content of the section 4 accordion body.

```
<p>From batch 2023 onwards, Humanities and Social Sciences are part of the <b>IKS + HSS</b> basket of the Institute Core:

```

4.4 C4 Section 5 “Design and Innovation Practicum”: old courses and a dead link

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “5. Design and Innovation Practicum”
Priority / status	Medium Ready
Commit	efb651e courses: rewrite the Design and Innovation Practicum section (C4)

What is wrong

The “Plan of Design & Innovation Practicum” table lists Reverse Engineering (0-0-3-2), Design Practicum (0-0-6-4), ISTP and a single 8-credit Major Technical Project. Current batches have IC-102P Foundations of Design Practicum (1-0-6-4), IC-202P Design Practicum (0-0-6-3), DP-301P ISTP and MTP I + II (4 + 4).

The text says “five courses” but four are listed. The “Download Course Details” link of IC201P is “#” (goes nowhere). IC101P was renamed “Understanding Product Internals” (47th BoA).

5. Design and Innovation Practicum

Design and Innovation Practicum

Design and Innovation Practicum (DIP) is a required course of undergraduate engineering core program. DIP program offers numerous challenges for both faculty and students because of the wide variety of projects in a given year as well as from year to year. At the end of DIP which will span during all the four years of engineering programs in different phases, students are expected to demonstrate the following attributes:

- Ability to apply knowledge of mathematics, science, and engineering
- Ability to design and conduct experiments, as well as to analyze and interpret data
- Ability to design a system, component, or process to meet desired needs
- Ability to function on multi-disciplinary teams
- Ability to identify, formulate, and solve engineering problems
- Understanding of professional and ethical responsibility
- Ability to communicate effectively
- Broad education necessary to understand the impact of engineering solutions in a global and societal context
- Ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

The program ventures far beyond the traditional classroom instruction, graduating students are beneficiary of a life-long learning process. A successful DIP program can facilitate achieving the educational institutions' goal of producing the most sought-after graduates by the industry.

Choosing a DIP problem/project

- Project that emphasizes design, experimental, and hands-on skills
- Do not choose a project involving only collection of published materials
- Problem that allows teamwork and offers opportunity for creativity
- Project should not be on the critical path of a program with stringent deadlines
- Project goals must be concrete and measurable

The criteria to determine success should be defined

Current — problem outlined in red (part 1 of 2)

- The criteria to determine success should be defined

Plan of Design & Innovation Practicum

Sr. No.	Course Name	Course Type	Objective	Team formulation	Contact Hours	Credits
1	Reverse Engineering	Core	Learning from existing products/subsystems/systems	Random selection from all disciplines	0L-0T-3P	2
2	Design Practicum	Core	Concepts of designing of products	Random selection from all disciplines	0L-0T-6P	4
3	Interdisciplinary Socio-Technical Practicum	Elective	Interaction with society to understand the needs	Team of like minded students	0L-0T-6P	4
4	Major Technical Project (PART A and PART B) Elective	In depth work on Technology/Product (Possibly continuing work done in Sr. No.2 & 3.	May have product/patent implications (not mandatory)	Team of like minded students	0L-0T-12P	8

There will be following five courses on Design & Innovation Practicum,

Note : Courses in Sr. No. 3 & 4 can be chosen by students independently.

IC201P	Design Practicum	Download Course Details
IC101P	Reverse Engineering	Download Course Details
DP301P	Interdisciplinary Socio-Technical Practicum	Download Course Details
DP401P	Major Technical Project	Download Course Details

Current — problem outlined in red (part 2 of 2)

What it should be

Keep the description (lightly edited) and replace the table and course list with the DIP courses and rules of the UG Ordinance 2026 (4.3–4.7, Table 3): what each course is, its semester, and what replaces it if a student does not take it. MTP codes follow the Ordinance (DP-498P / DP-499P).

5. Design and Innovation Practicum						
Design and Innovation Practicum (DIP) is the hands-on thread of the B.Tech. curriculum. It runs through all four years, from understanding and designing products in the first two years to a major technical project in the final year. At the end of DIP, students are expected to be able to: • apply knowledge of mathematics, science and engineering; • design and conduct experiments, and analyse and interpret data; • design a system, component or process to meet desired needs; • work in multi-disciplinary teams; • identify, formulate and solve engineering problems; • understand professional and ethical responsibility; • communicate effectively; • understand the impact of engineering solutions in a global and societal context; • use the techniques, skills and modern engineering tools needed in engineering practice. Choosing a DIP problem or project: it should emphasise design, experiments and hands-on skills (not only a collection of published material), allow teamwork and creativity, not be on the critical path of a programme with stringent deadlines, and have concrete, measurable goals and defined criteria for success. DIP courses for batch 2023 onwards (UG Ordinance 2026, sections 4.3–4.6)						
Sr. No.	Code	Course	Semester	L-T-P-C	If not taken	Details
1	IC-102P	Foundations of Design Practicum Institute Core. The steps of an engineering design problem, worked through by building a robot.	2	1-0-6-4	Compulsory (batch 2024 excepted)	Download
2	IC-202P	Design Practicum Institute Core. Teams design a prototype from commercial off-the-shelf hardware or software.	3	0-0-6-3	Free Electives + 3	Download
3	DP-	Interactive Socio-Technical Practicum (ISTP)	6	0-0-6-4	Free Electives + 4	Download

Proposed — change outlined in green (preview, not live yet) (part 1 of 2)

	301P	Elective for B.Tech., offered in semester 6; counts as a Free Elective for B.S.				
4	DP-498P	Major Technical Project-1 (MTP-1) Individual project with a principal guide; on campus only.	7	4 credits	Discipline Electives + 4	–
5	DP-499P	Major Technical Project-2 (MTP-2) Continues MTP-1 or a separate project. Grade point 7 or more in MTP-1 means MTP-2 is expected; 6 or less means it is not allowed.	8	4 credits	Discipline Electives + 4	–

- MTP is under Discipline Electives, so it must be in the student's core area. An MTP in a non-core area counts as Free Electives; for General Engineering it always counts as Discipline Electives (4.6.6, 4.6.13).
- Dropping MTP-2 needs the Dean (Academics)'s permission; the 4 credits are then made up from Discipline Electives (4.6.11).
- Young Innovator Fellows replace ISTP and MTP with Startup Practicum 1–3 (SP-501/502/503; 4, 6 and 10 credits).
- B.S. students do two 1-credit research projects in semesters 5 and 6 (Pass/Fail) and may take two 6-credit undergraduate research projects in semesters 7 and 8 (4.7).

Proposed — change outlined in green (preview, not live yet) (part 2 of 2)

Code to use. New content of the section 5 accordion body.

4.5 C5 Section 6 “Minor Program”: five minors missing, Robotics core out of date

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “6. Minor Program”
Priority / status	High Ready
Commit	037ac56 courses: replace the minor lists with the 2026 minor baskets (C5)

What is wrong

The section lists minor baskets from 2016-2022. Five minors are missing: Entrepreneurship, Quantum Technologies, VLSI Design, VLSI Technology and Robotics for batch 2025 onwards.

The Robotics core still shows “AR 501/ ME 452” and “AR 503”, which the 64th BoA replaced by AR-523 and AR-520. Minor in Management is shown in three versions (2016, 2020, 2022) with no batch mapping.

The rules do not say where minor credits are counted (Humanities or Free Electives). The German minor’s HS539 link is broken (its address starts with “senate_https://”).

6. Minor Program

Minor Program

A minor is intended for a student to gain expertise in an area outside his/her major B. Tech discipline. A specialist basket of 3-6 courses is identified for each Minor. Each basket may rest on one or more foundation courses. A basket may have sequences within it, i.e. advanced courses may rest on basic courses in the basket. In order to successfully complete a Minor, a student needs to take at least 9 credits with a CGPA of 7.0 out of the courses defined in that Minor basket. The area of the Minor must be different from the Major discipline of the student; the courses that are part of the common core (including HSS), or the discipline core/electives cannot be counted towards a Minor. A student is allowed to take any number of Minors, but a particular course cannot be counted for more than 1 Minor. The name of the Minor will appear on the Transcript and the degree certificate of the student.

Minor in Management ([Revised Version- Modified & w.e.f. February, 2022](#))

Minor in Management ([Older Version-2 Modified & w.e.f. February, 2020](#))

Minor in Management ([Older Version-1 Approved in 9th Senate held on 11th May, 2016](#))

Applied Physics

EP-502	Informatics for Materials Design
PH301/PH513*	Quantum Mechanics and Applications/Quantum Mechanics
PH302/PH522 *	Introduction to Statistical Mechanics/Statistical Mechanics
PH501/PH523*	Solid State Physics/Condensed Matter Physics
PH-502	Photonics
PH-503	Laser and Applications
PH-504	Organic Optoelectronics
PH-505	Electronic Structure
PH-506	Project
PH-507	X-rays as a probe to study material properties
PH-508	Magnetism and Magnetic Materials

Current — problem outlined in red (part 1 of 4)

PH-509	Magnetism and Magnetic Materials
PH-511	Mathematical Physics
PH-528	Introduction to General Relativity
PH-601	Mesoscopic Physics and Quantum Transport
PH-603	Advanced Condensed Matter Physics
PH-604	Optical Properties of Solids
PH-605	Superconductivity
PH-606	Quantum Field Theory

Power Engineering

Minor/ Eligible streams	Foundation courses (compulsory to get minor)	List of suggested courses
Power Engineering	- Electromechanics (EE201) - Power Electronics (EE309)	- Algorithms Design and Analysis (CS403) - Formal Languages and Automata Theory (CS304) - Computer Organization (CS201) - Information and Database Management System (CS309) - Deep Learning and its Applications (CS671)
All other than PE		

Electronics Engineering

Current — problem outlined in red (part 3 of 4)

Minor/ Eligible streams	Foundation courses (compulsory to get minor)	List of suggested courses
Electronics Engineering	- Network Theory (EE203) - Digital System Design (EE210)	- Analog Circuit Design (EE211) - Digital Signal Processing (EE305) - Device Electronics for Integrated Circuits (EE311) - Microelectronics Circuits Design Practicum (EE312P)
All other than EE		

Communication Engineering

Minor/ Eligible streams	Foundation courses (compulsory to get minor)	List of suggested courses
Communication Engineering	Communication Theory (EE304)<	- Advance Communication Theory (EE502) - Digital Signal Processing (EE305) - Applied Optimization (EE530)
All other than EE		

Measurement and Instrumentation

Minor/ Eligible streams	Foundation courses (compulsory to get minor)	List of suggested courses
Measurement and Instrumentation	Measurement and Instrumentation (EE313)	- Control Systems (EE301) - Digital Signal Processing (EE305) - Advance Digital Signal Processing (EE620)
All other than EE		

Control Engineering

Minor/ Eligible streams	Foundation courses (compulsory to get minor)	List of suggested courses
Control Engineering	- Control Systems (EE301) - Control System Laboratory (EE301P)	- Linear Dynamical Systems (EE509) - Robust Control Systems (EE514)
All other than EE		

Current — problem outlined in red (part 4 of 4)

What it should be

Replace the section with the rules of the UG Ordinance 2026 (section 10) and one table of all 20 minor baskets from the Minors booklet (18 minors; Management and Robotics have batch-wise versions), each linking to its page in the booklet. Upload the booklet after BoA approval.

6. Minor Program

A minor is intended for a student to gain expertise in an area outside his/her major B.Tech./B.S. discipline. A minor can be in HSS or in any area outside the parent branch; there is no minor in the parent branch. Each minor has a specialist basket of at least 9 credits, which may rest on one or more foundation courses; advanced courses in a basket may rest on basic ones (UG Ordinance 2026, section 10).

- To complete a minor, a student must earn **at least 9 credits** (or the total the basket prescribes) from that basket, with a CGPA of **7.0** over the courses counted towards the minor.
- Common Core, Discipline Core and Discipline Elective courses cannot be counted towards a minor; HSS/IKS elective credits may be counted where the basket permits.
- Minor courses are counted in the Humanities or Free Elective basket, as the student's curriculum prescribes.
- A student may take any number of minors, but one course counts towards only one minor. A student cannot take a Second Major and a minor in the same discipline.
- The name of the minor appears on the transcript and the degree certificate. A minor can be pursued only when its basket is opened and its courses are offered in the registration cycle.

Download: Minor Programmes (all baskets and course lists)

4.6 C6 Section 7 “Double Major Programme”: one paragraph from 2021

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “7. Double Major Programme”
Priority / status	Medium Ready
Commit	377393e courses: add Second Major, Honours and Specialization rules (C6)

What is wrong

The section is one paragraph announcing the programme “from 2021”. It has no eligibility, rules, list of disciplines or course baskets, and no link to the governing ordinance or circular.

The paragraph also shows broken characters around ‘Major’ (an encoding problem with curly quotes). The programme is called “Second Major” in the UG Ordinance 2026, and Honours and Specialization are not described anywhere on the page.

7. Double Major Programme

Realizing the current need of interdisciplinary skill development towards successful careers, IIT Mandi has introduced a Double Major program from 2021, by which a student of one discipline is allowed to obtain a second ‘Major’ by spending an extra one or two semesters to study approximately 12 courses of another discipline. For example, a student of Civil Engineering or Engineering Physics would be able to obtain a second major in Computer Science & Engineering. This would enable the student to sit for campus placements for CS related companies as well .

Current — problem outlined in red

What it should be

Rename the section “Second Major, Honours and Specialization” and give the rules of the UG Ordinance 2026 (sections 11, 12 and 14): eligibility, extra coursework, MTP, exit and degree name for the Second Major; the two Honours modes; and the 15-credit Specialization rule.

7. Second Major, Honours and Specialization	
Interdisciplinary skills open many careers, so a B.Tech./B.S. student may add a Second Major in another discipline by spending one extra year on that discipline's core and elective courses. For example, a student of Civil Engineering or Engineering Physics can earn a Second Major in Computer Science and Engineering. The rules below are from the UG Ordinance 2026 (sections 11, 12 and 14).	
Second Major	
Who can apply	CGPA of at least 7.0 and not more than one F grade when applying, at the end of semester 6, with the Faculty Advisor's recommendation. Each school fixes its seats every year and a committee of the Dean (Academics) selects on merit.
Extra coursework	36–40 credits of Discipline Core and Discipline Elective courses of the second discipline (a basket set by its School Chair), 196–200 credits in all. These courses cannot be taken Pass/Fail and cannot be courses already counted for the parent degree.
MTP and Honours	MTP must be in the parent discipline (an MTP in the second major counts as Free Electives). Honours applies only to the parent discipline.
Leaving the programme	There is no voluntary exit. A student with 2 or more F grades in the second-major courses is removed from it; the parent degree is still awarded if its requirements are met.
Degree	B.Tech./B.S. in <Parent Branch> with Second Major in <Secondary Branch>, with one transcript and one CGPA. Medals are competed for with the next graduating batch.
Honours (opt in at the end of semester 4 or 5, with no F grade so far) - MTP-1 and MTP-2 (8 credits, in the parent discipline) and DP-301P ISTP, each with grade B or above; no F grade in the programme. - Mode A: CGPA of 9.0 or more. Mode B: CGPA of 8.0 or more together with a research article published or accepted in an SCI/SCIE journal, or a patent granted, with IIT Mandi affiliation and declared before the last date of semester-8 grade submission. - Degree: B.Tech. (Honours) / B.S. (Honours) in <discipline>. Earlier Honours notification	
Specialization - Expertise in a specific area of the student's own discipline: at least 15 credits from that specialization's basket, with a CGPA of 7.0 over those courses. - Each discipline publishes its list of specializations. The degree reads B.Tech. in <discipline> with Specialization in <area>.	

Proposed — change outlined in green (preview, not live yet)

Code to use. New content of the section 7 accordion body.

4.7 C9 Section 2: old grading system shown as the current one

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “2. Evaluation: Grading System and CGPA Calculation”
Priority / status	Medium Ready
Commit	cb2eb96 courses: show the current grading system (C9)

What is wrong

Below the link to the new grading system, the whole old system (O/A/B/C/D/E/F with the “I” grade) is printed as page text, while the grades in use since AY 2024-25 (A*, A, A-, B, B-, C, C-, D, F, FS, I, P, AP, AF) are only in a linked PDF.

The CGPA text still says a failed elective must be cleared “under the same elective slot” and is silent on Pass/Fail credits.

2. Evaluation: Grading System and CGPA Calculation

New Grading System

Notification: [Formula for CGPA to Percentage Conversion](#)

Old Grading System

Grading is done on a 10-point scale by means of the letter grades: O, A, B, C, D, E, F. On the 10-point scale, these letter grades carry the following numerical values:

Letter Grade:	0	A	B	C	D	E	F
Points equivalence:	10	9	8	7	6	4	0

Where F grade is fail grade.

In addition to the above grades, there is a temporary grade, I (Incomplete). The I-grade indicates that a small part of the total requirements of the course remains to be completed and that the student has done satisfactory work in all other aspects of the course. The I grade needs to be converted to a proper letter grade within 1 month of the start of the next semester.

CGPA Calculation

The performance in a semester is indicated by the Semester Grade Point Average (SGPA), which is a weighted average of the grades in all the courses done by the student in the given semester. The SGPA is calculated as follows:

$$SGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

Current — problem outlined in red (part 1 of 2)

where c_i stands for the credit in a course and g_i the point equivalent of the grade obtained in that course. The summation is over the number of courses n in the semester.

The performance up to any time in the course of the student's program is indicated by the student's Cumulative Grade Point Average (CGPA), which is also calculated by the above formula, except that the averaging is done over all of the courses that the student has done during his/her entire program up to that point. If the student has earned an F grade in a course in any semester, that also goes into the calculation of the CGPA. As and when the student finally clears the course, the record of the F is removed and replaced by the new passing grade, thereby modifying the CGPA. (If the student fails in an elective course, he/she needs to pass either that same course or an equivalent course chosen under the same elective slot in consultation with the faculty advisor). Thus, when the student graduates, the final CGPA is calculated on the basis of only the passing grades.

Current — problem outlined in red (part 2 of 2)

What it should be

Show the current grade table (UG Ordinance 2026, Table 6), the FS/I/P rules and the SGPA/CGPA definitions of the UG Handbook 2026 (2.4-2.5) as page text, and fold the old system into a collapsible archive note.

2. Evaluation: Grading System and CGPA Calculation

New Grading System (in force from AY 2024-25) | Notification: Formula for CGPA to Percentage Conversion

Letter grades and grade points (UG Ordinance 2026, Table 6)

Letter grade	Grade point	Meaning
A*	10	Outstanding
A	10	Excellent
A-	9	Very Good
B	8	Good
B-	7	Above Average
C	6	Average
C-	5	Below Average
D	4	Marginal
F	0	Fail
FS	0	Fail due to short attendance
I	0	Incomplete
P	0	Pass; earned credits do not enter SGPA or CGPA
AP	0	Audit Pass
AF	0	Audit Fail

- FS is given when attendance is below 80%: the student cannot take the end-semester examination and must repeat the course.
- I is temporary: the remaining part must be completed within about one month of the next regular semester, after which the instructor replaces it with a regular grade; otherwise it becomes F.
- P (Pass/Fail) credits do not enter the SGPA or CGPA. Up to 6 Pass/Fail credits may be taken in a semester (3 during an approved onsite semester internship).

Proposed — change outlined in green (preview, not live yet) (part 1 of 2)

- P (Pass/Fail) credits do not enter the SGPA or CGPA. Up to 6 Pass/Fail credits may be taken in a semester (3 during an approved onsite semester internship).

SGPA and CGPA

SGPA = $\sum (c_i \times g_i) / \sum c_i$, over all courses registered in the semester, where c_i is the credits of course i and g_i the grade point obtained. F grades are included. The CGPA uses the same formula over all courses taken so far; an F is left out once the course is cleared or replaced by an equivalent course.

The final CGPA on the degree counts every letter-graded credit earned, including credits beyond the minimum, and leaves out F grades once all basket requirements (IC, DC, DE, FE) are met. The F grade stays on the grade sheet and transcript. A CGPA of at least 5.0 is needed to graduate.

(in force from AY 2024-25)

[Notification: Formula for CGPA to Percentage Conversion](https://academics.iitmandi.ac.in/files/CGPA_to_Percentage_Certificate_26022020.pdf)

Letter grades and grade points (UG Ordinance 2026, Table 6)

Letter grade	Grade point	Meaning
A*	10	Outstanding
A	9	Very Good
B	8	Good
B-	7	Above Average
C	6	Average
C-	5	Below Average
D	4	Marginal
F	0	Fail
FS	0	Fail due to short attendance
I	0	Incomplete
P	0	Pass; earned credits do not enter SGPA or CGPA
AP	0	Audit Pass
AF	0	Audit Fail

- FS** is given when attendance is below 80%: the student cannot take the end-semester examination and must repeat the course.
- I** is temporary: the remaining part must be completed within about one month of the next regular semester, after which the instructor replaces it with a regular grade; otherwise it becomes F.
- P** (Pass/Fail) credits do not enter the SGPA or CGPA. Up to 6 Pass/Fail credits may be taken in a semester (9 during an approved onsite semester internship).

SGPA and CGPA

$$SGPA = \frac{\sum c_i g_i}{\sum c_i}$$
where c_i is the credits of course i and g_i the grade point obtained. F grades are included. The CGPA uses the same formula over all courses taken so far; an F is left out once the course is cleared or replaced by an equivalent course.

The final CGPA on the degree counts every letter-graded credit earned, including credits beyond the minimum, and leaves out F grades once all basket requirements (IC, DC, DE, FE) are met. The F grade stays on the grade sheet and transcript. A CGPA of at least 5.0 is needed to graduate.

Grading used before AY 2024-25 (archive)

Letter grades O, A, B, C, D, E and F carried 10, 9, 8, 7, 6, 4 and 0 points; F was the fail grade.

4.8 C7a Course table: recoded, discontinued or never-approved courses

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section “8. Senate/BoA Approved Course Description”, course table
Priority / status	High Ready
Commit	7847f87 courses table: mark 26 recoded or discontinued courses and add their new codes (C7a)

What is wrong

36 courses in the table were recoded, discontinued or never approved according to the BoA/Senate minutes. Example: AR-501 and AR-503 were replaced by AR-523 and AR-520 at the 64th BoA, but only the old codes are listed.

The full list is in Appendix A.

8. Senate/BoA Approved Course Description (To view the courses click the arrow)

Course Code	Course Title	Action
AR-501	Robot Kinematics, Dynamics, and Control	Download
AR-502	Advanced Design Practicum	Download
AR-503	Mechatronics	Download
AR-504	Robot Programming, Modeling, and Simulation	Download
AR-505	Principles of Robot Autonomy	Download
AR-506	Cognitive Robotics	Download
AR-507	Probabilistic Robotics	Download
AR-508	Marine Robotics	Download
AR-509	Deep Learning for Robotics	Download
AR-510	Underactuated Robotics	Download
AR-511	Autonomous Mobile Robots	Download
AR-512	Rapid Prototyping and Tooling	Download
AR-513	Unmanned Aerial Systems (UAS)	Download
AR-514	Vision and Learning Based Control	Download
AR-515	Sensors and State Estimation	Download

Current — problem outlined in red

What it should be

Keep the old row (students of earlier batches have it on their transcripts) but add “replaced by ...” to its title, and add the new code as its own row. Remove or confirm the never-approved entries (Appendix A says which).

8. Senate/BoA Approved Course Description (To view the courses click the arrow)

Course Code	Course Title	Action
AR-501	Robot Kinematics, Dynamics, and Control (replaced by AR-523 (64th BoA))	Download
AR-502	Advanced Design Practicum	Download
AR-503	Mechatronics (replaced by AR-520 (64th BoA))	Download
AR-504	Robot Programming, Modeling, and Simulation	Download

AR-507	Probabilistic Robotics	Download
AR-508	Marine Robotics	Download
AR-509	Deep Learning for Robotics	Download
AR-510	Underactuated Robotics	Download
AR-511	Autonomous Mobile Robots	Download
AR-512	Rapid Prototyping and Tooling	Download
AR-513	Unmanned Aerial Systems (UAS)	Download
AR-514	Vision and Learning Based Control	Download
AR-515	Sensors and State Estimation	Download
AR-520	Design Practicum of Mechatronic Systems	Download
AR-523	Robot Manipulators	Download

Proposed — change outlined in green (preview, not live yet)

Code to use. Row pattern for a new code, and the note for an old one. Appendix A has all 36 rows.

```
<tr>
  <td>AR-523</td>
  <td>Robot Manipulators</td>
  <td>
    <a href="https://academics.iitmandi.ac.in/pdf/senate_courses/AR-523.pdf" target="_blank">Download</a>
  </td>
</tr>

<!-- old row: add the note -->
<td>Robot Kinematics, Dynamics, and Control <span class="text-muted small">(replaced by AR-523 from the 64th BoA)</span></td>
```

4.9 C7b Course table: 43 codes listed more than once

Page	https://academics.iitmandi.ac.in/courses
Menu path	Student Corner > Courses
Where on the page	Section 8, course table
Priority / status	Medium Ready
Commit	aa7d4af courses table: remove 23 repeated rows (C7b)

What is wrong

43 course codes have two or three rows. Some are exact repeats (CE-203P Building Materials Lab twice in a row); others are the same course written as “BE-203” and “BE203” in different parts of the table; a few put two different courses under one code (e.g. ME601, ME616, PH526, PH527).

The full list is in Appendix B.

```

5 Degree Programs page

5.1 D1 UG programme list: mixed old and 2023 curricula, nothing for 2024-2026

Page	https://academics.iitmandi.ac.in/degreeprograms
Menu path	Student Corner > Degree Programs
Where on the page	“UG COURSES” tab, programme table
Priority / status	High Ready
Commit	be69566 degree programs: list every UG programme by batch (D1)

What is wrong

The table mixes old and “2023” curricula: General Engineering appears twice, Civil, CSE, Mechanical and Engineering Physics each appear twice (old and 2023), and both “Data Science and Engineering” and “Data Science and Artificial Intelligence” are listed. There is nothing for batches 2024, 2025 and 2026.

General Engineering specialisations (AI and Robotics, Mechatronics, Communication Technology, Open Specialisation, Fintech / Data Analytics for Management and Finance) are not shown at all, and the IMBA heading has no link under it.

Programme	View
IIT Mandi offers Bachelor of Technology in the following branches:	
Bachelor of Technology in General Engineering.	
Bachelor of Technology in Civil Engineering_2023	
Bachelor of Technology in Civil Engineering	
Bachelor of Technology in Computer Science and Engineering_2023	
Bachelor of Technology in Computer Science and Engineering	
Bachelor of Technology in Electrical Engineering	
Bachelor of Technology in Mechanical Engineering_2023	
Bachelor of Technology in Mechanical Engineering	
Bachelor of Technology in Data Science and Engineering	

Current — problem outlined in red (part 1 of 3)

Bachelor of Technology in Engineering Physics_2023	
Bachelor of Technology in Engineering Physics	
Bachelor of Technology in General Engineering	
Bachelor of Technology in Materials Science and Engineering	
Bachelor of Technology in Microelectronics & VLSI	
Bachelor of Technology in Mathematics and Computing	
BS in Chemical Sciences	
Bachelor of Technology in Agricultural Engineering with Data Analytics	
Bachelor of Technology in Quantum Science and Engineering	
Bachelor of Technology in Chemical Engineering with Data Analytics	

Current — problem outlined in red (part 2 of 3)

Bachelor of Technology in Data Science and Artificial Intelligence	
Bachelor of Technology in Bio Engineering	
B.Tech.-M.Tech. Integrated Dual Degree in Bio-Engineering	
Integrated Master of Business Administration program (IMBA)	

Current — problem outlined in red (part 3 of 3)

What it should be

One row per programme and one column per batch, each linking to that programme's page in the UG Curriculum booklet (#page=N). The old PDFs can be removed or moved to an archive list.

Programme	Batch 2023	Batch 2024	Batch 2025	Batch 2026

Doctor of Philosophy in School of Chemical Sciences	
Doctor of Philosophy in School of Civil & Environmental Engineering	
Doctor of Philosophy in School of Management	
Doctor of Philosophy in School of Mathematical & Statistical Sciences	
Doctor of Philosophy in School of Mechanical and Materials Engineering	
Doctor of Philosophy in School of Physical Sciences	
Doctor of Philosophy in Indian Knowledge System and Mental Health Application (IKSMHA)	
Doctor of Philosophy in Centre Artificial Intelligence and Robotics (CAIR)	
Integrated-Doctor of Philosophy	
Integrated-Doctor of Philosophy in Physics	Details

Current — problem outlined in red

What it should be

Ask each school (through the PG Academic Secretary) for its current PG and PhD course structure.

Needs input: the office has to supply or confirm the content before this change can be made, so no proposed screenshot or code is given.

6 Other pages

6.1 O1 Orientation fee table: payment date says 2025

Page	https://academics.iitmandi.ac.in/orientation
Menu path	Events Under Secretariat > Orientation
Where on the page	Fee tables, "Category I"
Priority / status	Medium Ready
Commit	e67b386 orientation: correct the Category I payment date to 30 July 2026 (O1)

What is wrong

Category I says "to be paid on or before 29th July, 2025". Every other category says 30th July, 2026.

Category I UR/Gen (EWS)/OBC(NCL) (Family income above ₹5 Lakhs)		
Particulars	Amount	Remarks
Fee (Institute/Academic including Hostel and Mess) for 1st semester	₹1,18,000/- (Institute Fee) ₹37,234/- (Hostel/Mess & Facilities charges)	Documents Required: No Fee remission is applicable, so no document required
Total	₹1,55,234/-	
Seat acceptance fee amount ₹30,000/- collected by JoSAA#	₹25,000/- # (adjusted amount)	
Total Fee (Institute/Academic including Hostel and Mess) to be paid on or before 29th July, 2025	₹1,30,234/- (to be paid by the student)	
# ₹5,000/- deducted towards JoSAA processing charges		

Current — problem outlined in red

What it should be

Change it to 30th July, 2026 (or, now that admission is over, archive the 2026 page).

Category I UR/Gen (EWS)/OBC(NCL) (Family income above ₹5 Lakhs)		
Particulars	Amount	Remarks
Fee (Institute/Academic including Hostel and Mess) for 1st semester	₹1,18,000/- (Institute Fee) ₹37,234/- (Hostel/Mess & Facilities charges)	Documents Required: No Fee remission is applicable, so no document required
Total	₹1,55,234/-	
Seat acceptance fee amount ₹30,000/- collected by JoSAA#	₹25,000/- # (adjusted amount)	
Total Fee (Institute/Academic including Hostel and Mess) to be paid on or before 30th July, 2026	₹1,30,234/- (to be paid by the student)

6.3 O3 Ordinances page: UG Ordinance 2026 is missing

Page	https://academics.iitmandi.ac.in/ordinances
Menu path	(not in the menu; see S5)
Where on the page	Ordinances table
Priority / status	High Ready
Commit	dae3d49 ordinances: add the UG Ordinance 2026 and the UG Handbook 2026 (O3)

What is wrong

The page lists a “B.Tech. Ordinances and Regulations” PDF with no date or version, the M.Tech./M.Sc. ordinance of 2020 and the Ph.D. ordinance. The UG Ordinance 2026, which covers B.Tech. and B.S. together (credit structure, internships, minors, Honours, Second Major, IDD conversion, medals), is not there, and neither is the UG Handbook 2026 that explains it to students.

> Ordinances

I-PH.D. (PHYSICS) ORDINANCES AND REGULATIONS	
B.TECH. ORDINANCES AND REGULATIONS	
MA ORDINANCES AND REGULATIONS	
M.TECH/ M.SC. ORDINANCES AND REGULATIONS	
M.TECH (R) ORDINANCES AND REGULATIONS	
PH.D. ORDINANCES AND REGULATIONS	

Current — problem outlined in red

What it should be

Add the UG Ordinance 2026 and the UG Handbook 2026 at the top of the table and mark the old B.Tech. file as the earlier version. Upload the ordinance once it is notified.

> Ordinances

UG ORDINANCE 2026 (B.TECH. AND B.S.)	
UG HANDBOOK 2026 (STUDENT GUIDE TO THE UG ORDINANCE)	
I-PH.D. (PHYSICS) ORDINANCES AND REGULATIONS	
B.TECH. ORDINANCES AND REGULATIONS (EARLIER VERSION)	
MA ORDINANCES AND REGULATIONS	
M.TECH/ M.SC. ORDINANCES AND REGULATIONS	
M.TECH (R) ORDINANCES AND REGULATIONS	
PH.D. ORDINANCES AND REGULATIONS	

Proposed — change outlined in green (preview, not live yet)

Code to use. Two new rows at the top of the ordinances table (file names are suggestions).

```
<tr>
  <td scope="row"><b>UG ORDINANCE 2026 (B.TECH. AND B.S.)</b></td>
  <td>
    <a href="https://academics.iitmandi.ac.in/pdf/ordinances/UG_Ordinance_2026.pdf" target="_blank">
      <span class="fa fa-file-pdf fa-3x mt-2 "></span>
    </a>
  </td>
</tr>
<tr>
  <td scope="row"><b>UG HANDBOOK 2026 (STUDENT GUIDE TO THE UG ORDINANCE)</b></td>
  <td>
    <a href="https://academics.iitmandi.ac.in/pdf/admissions/UG_Academic_Handbook.pdf" target="_blank">
      <span class="fa fa-file-pdf fa-3x mt-2 "></span>
    </a>
  </td>
</tr>
```

6.4 O4 Scholarships page: no eligibility rules, and broken table rows

Page	https://academics.iitmandi.ac.in/scholarships
Menu path	Student Corner > Scholarships
Where on the page	Above the scholarships table
Priority / status	Medium Ready
Commit	70e46ab scholarships: add UG eligibility at a glance and fix the table rows (O4)

What is wrong

The page only links PDFs (HTRA revision, McM guidelines, an affidavit format of March 2021). A UG student cannot see the basic conditions (CGPA, income limit, no backlog, credit rule) without opening each file.

The table rows have no opening <tr> tags, so the row layout depends on the browser repairing the HTML.

Scholarships

[Home](#) >> Scholarships

S. No	Scholarships	Details	View
1	HTRA scholarship for M.S., M.Tech., and Ph.D. Students/Scholars	HTRA Revised Scholarship	Details
2	Merit-cum-Means Scholarship for General/ OBC/ SC-ST Category students:	Revised guidelines for Merit-cum-Means (McM) Scholarship for General/OBC students & Institute SC/ST Scholarship	Details

4	National Fellowship and Scholarship for Higher Education of ST Students and other Scholarships	Visit National Scholarship Portal (NSP)	Details
5	Prime Minister's Research Fellowship (PMRF)	Prime Minister's Research Fellows	Details

Current — problem outlined in red

What it should be

Add a short “eligibility at a glance” box from section 7 of the UG Ordinance 2026 above the table, and add the missing <tr> tags.

Scholarships

[Home](#) >> Scholarships

UG scholarships: eligibility at a glance (UG Ordinance 2026, section 7)

- Merit-cum-Means (MCM) scholarships are limited to 25% of the students of each branch and year, and are paid after semesters 2, 4, 6 and 8 on a committee's recommendation.
- CGPA and SGPA of at least 6.00 (not applicable to SC/ST students); no pending backlog or F grade; earned credits at least 18 times the number of semesters registered; gross family income up to Rs. 4.5 lakh a year; no disciplinary action.
- In the first year, merit is the JEE (Advanced) All India Rank.
- SC/ST students are reimbursed the tuition fee as per Government of India rules. The Dhawan Fellowship is available for Himachali female students.
- For external scholarships (44th Senate, item 44.3.11), a B.Tech. student with a CGPA of 5 or more who has been promoted to the next semester counts as passed, with or without an F grade.

  <h5 class="fw-bold">UG scholarships: eligibility at a glance <span class="small text-muted">(UG Ordinance 2026, section 7)</span></h5>
  <ul class="mb-1">
    <li>Merit-cum-Means (MCM) scholarships are limited to 25% of the students of each branch and year, and are paid after semesters 2, 4, 6 and 8 on a committee's recommendation.</li>
    <li>CGPA and SGPA of at least 6.00 (not applicable to SC/ST students); no pending backlog or F grade; earned credits at least 18 times the number of semesters registered; gross family income up to Rs. 4.5 lakh a year; no disciplinary action.</li>
    <li>In the first year, merit is the JEE (Advanced) All India Rank.</li>
    <li>SC/ST students are reimbursed the tuition fee as per Government of India rules. The Dhawan Fellowship is available for Himachali female students.</li>
    <li>For external scholarships (44th Senate, item 44.3.11), a B.Tech. student with a CGPA of 5 or more who has been promoted to the next semester counts as passed, with or without an F grade.</li>
  </ul>
</div>
```

A Courses to mark as replaced, or remove

Courses on the site that the BoA/Senate minutes recode, discontinue or never approve. For a recoded course, keep the old row with a “replaced by” note and add the new code (change 4.8).

Code	Title on site	Register status	Action	Minutes
AR-501	Robot Kinematics, Dynamics, and Control	Recoded to AR-523	Replace with AR-523 (64th BoA); keep old entry only if older batches still take it	50th BoA (Jul 2023)
AR-503	Mechatronics	Recoded to AR-520	Replace with AR-520 (64th BoA); keep old entry only if older batches still take it	50th BoA (Jul 2023)
BY517	Proteomics	Discontinued	Discontinued in the minutes - remove, or move to an “archived courses” list	33rd BoA: revised; 24th Senate: revised; 60th BoA: discontinued
CE302	Geotechnical Engineering	Recoded to CE-311	Replace with CE-311 (52nd BoA); keep old entry only if older batches still take it	36th BoA (Sep 2020)
CE305P	Environment and Earth Science Lab	Recoded to CE-306P	Replace with CE-306P (52nd BoA); keep old entry only if older batches still take it	36th BoA (Sep 2020)
CE688P	Post Graduate Project I	Recoded to CE-690P	Replace with CE-690P (60th BoA); keep old entry only if older batches still take it	55th BoA: credits_ changed from 0-0-24-12
CE689P	Post Graduate Project II	Recoded to CE-691P	Replace with CE-691P (60th BoA); keep old entry only if older batches still take it	55th BoA: credits_ changed from 0-0-34-17
CS402	Compiler Technology	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
CS601	Probability and Random Processes	Recoded to EE-534	Replace with EE-534 (22nd Senate); keep old entry only if older batches still take it	14th BoA (Sep 2016)
CY502	Photochemistry and Pericyclic Reactions	Recoded to CY-522	Replace with CY-522 (9th Senate); keep old entry only if older batches still take it	9th Senate: recoded to CY-522
CY645	Reagents in Organic Synthesis	Discontinued	Discontinued in the minutes - remove, or move to an “archived courses” list	60th BoA: discontinued
EE609	Network Information Theory	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
EM504	Materials for Energy Applications	Recoded to EM-601	Replace with EM-601 (18th BoA); keep old entry only if older batches still take it	18th BoA: recoded to EM-601
EN611	Durability Behaviour of Energy Materials	Recoded to MT-304	Replace with MT-304 (64th BoA); keep old entry only if older batches still take it	39th BoA: revised; 64th BoA: discontinued
HS261	The Indian Constitution	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
HS358	Science Writing	Recoded to HS-305	Replace with HS-305 (14th BoA); keep old entry only if older batches still take it	14th BoA: recoded to HS-305
HS381	Indian Society: Structure and Change	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
HS401	Tribal India, Indigenous Latin America	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
HS451	Modern Literature	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
HS471	Contemporary India	Discontinued	Discontinued in the minutes - remove, or move to an “archived courses” list	23rd Senate: discontinued
HS536	Social Movements in India	Recoded to HS-382	Replace with HS-382 (14th BoA); keep old entry only if older batches still take it	14th BoA: recoded to HS-382
HS550P	Statistical Method Practical	Discontinued	Discontinued in the minutes - remove, or move to an “archived courses” list	27th BoA: discontinued
HS575	Mayan America	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	4th Senate (May 2013)
HS601	Literary Methods: Theory and Interpretation	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	3rd Ad-hoc Senate (Nov 2012)
HS650	Statistical Methods	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	26th BoA (Oct 2018)

continued on the next page

Code	Title on site	Register status	Action	Minutes
IC-141	Product realization Technology	Recoded to ME-212	Replace with ME-212 (64th BoA); keep old entry only if older batches still take it	47th BoA: renamed from IC-141 Product Realization Theory; 37th Senate: renamed from Product Realization Theory; 64th BoA: discontinued
IC150	Computation for Engineers	Discontinued	Discontinued in the minutes - remove, or move to an "archived courses" list	25th BoA: discontinued; 17th Senate: discontinued
IC150P	Computing for Engineers Lab	Discontinued	Discontinued in the minutes - remove, or move to an "archived courses" list	25th BoA: discontinued; 17th Senate: discontinued
IK-509	Research methodology	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	53rd BoA (Dec 2023)
MA551	Numerical Analysis	Recoded to MA-702	Replace with MA-702 (14th BoA); keep old entry only if older batches still take it	9th BoA (Oct 2015)
MA654	Financial Engineering	Recoded to MA-545	Replace with MA-545 (65th BoA); keep old entry only if older batches still take it	65th BoA: discontinued
ME311P	Design Lab	Recoded to ME-206P	Replace with ME-206P (61st BoA); keep old entry only if older batches still take it	9th BoA (Oct 2015)
ME312P	Design Lab -2	Recoded to ME-309P	Replace with ME-309P (61st BoA); keep old entry only if older batches still take it	9th BoA (Oct 2015)
ME506	Fundamentals of Fracture Mechanics	Recoded to ME-623	Replace with ME-623 (18th BoA); keep old entry only if older batches still take it	9th Senate (May 2016)
ME609	Functional Materials	Recoded to EN-509	Replace with EN-509 (44th BoA); keep old entry only if older batches still take it	2nd Adhoc Senate (May 2012)
ME618	Refrigeration and Air Conditioning	Deferred / not approved	Minutes show only a deferral / rejection - confirm approval before keeping	5th Senate (Oct 2013)

B Codes listed more than once

Keep one row per code (change 4.9). "Approved title" is the latest title in the minutes.

Code	Written on site as	Titles on site	Approved title	Action
BE-203	BE-203 BE203	Enzymology and Bioprocessing Enzymology and Bioprocessing	Enzymology and Bioprocessing	Keep one entry
BE-304	BE-304 BE304	Bioinformatics Bioinformatics	Bioinformatics	Keep one entry
CE-203P	CE-203P CE-203P	Building Materials Lab Building Materials Lab	Building Materials Lab	Keep one entry
CE-303	CE-303 CE303	Water Resources Engineering Water Resources Engineering	Water Resources Engineering	Keep one entry
CE-352	CE352 CE352	Transportation Engineering Transportation Engineering	Transportation Engineering	Keep one entry
CE-353P	CE353P CE353P	Civil Engineering Drawing Civil Engineering Drawing	Civil Engineering Drawing	Keep one entry
CS-545	CS545 CS545	Software Designing Patterns Software Design Pattern	Software Designing Patterns	Different courses under one code - check which is current
CS-546	CS546 CS546	Design of Concurrent Software Design of Concurrent Software	Design of Concurrent Software	Keep one entry
CS-547	CS547 CS547	Network Management Systems Network Management Systems	Network Management Systems	Keep one entry
CS-548	CS548 CS548	Cloud Networking Cloud Networking	Cloud Networking	Keep one entry
EE-304	EE-304 EE304	Communication Systems Communication theory	Communication Systems	Different courses under one code - check which is current
EN-503	EN503 EN503	Energy Storage Technologies Energy Storage Technologies	Energy Storage Technologies	Keep one entry
HS-591	HS591 HS591	Special Topics in Business Communications for Engineers Selected Topics in Personal Financial Planning	Special Topics in Seemingly Unrelated Regression Equations	Different courses under one code - check which is current

continued on the next page

Code	Written on site as	Titles on site	Approved title	Action
HS-623	HS623 HS623	Advanced Social Psychology Advance Social Psychology	Advance Social Psychology	Different courses under one code - check which is current
IC-141	IC-141 IC141	Product realization Technology Product Realization Technology	Product Manufacturing	Keep one entry
IC-240	IC240 IC240	Mechanics of Rigid Bodies Mechanics of Rigid Bodies	Mechanics of Rigid Bodies	Keep one entry
IC-250	IC250 IC250	Data Structure and Algorithm Programming and Data Structure Practicum	Data Structure and Algorithms	Different courses under one code - check which is current
IC-260	IC260 IC260	Signals and Systems Signals and System	Signals and System	Different courses under one code - check which is current
MA-465	MA465 MA465	Ordinary Differential Equations Ordinary Differential Equations	Ordinary Differential Equations	Keep one entry
MA-511	MA511 MA511	Real and complex Analysis Real Analysis	Real Analysis	Different courses under one code - check which is current
MA-521	MA521 MA521	Topology and Functional Analysis Functional Analysis	Functional Analysis	Different courses under one code - check which is current
MA-551	MA551 MA551	Numerical Analysis Numerical Methods	Numerical Methods	Different courses under one code - check which is current
MA-582	MA582 MA582	Project Part 2 Project-Part II	Project (Part-2)	Different courses under one code - check which is current
MA-612	MA612 MA612	Operator Theory Operator Theory	Operator Theory	Keep one entry
ME-352	ME352 ME352	Finite Element Methods in Engg. Finite Element Methods	Finite Element Methods in Engineering	Different courses under one code - check which is current
ME-356	ME356 ME356	Principles of Energy Conversion Principles of Energy Conversion	Principles Of Energy Conversion	Keep one entry
ME-518	ME518 ME518	Conduction and Radiation Conduction and Radiation	Conduction and Radiation	Keep one entry
ME-522	ME-522 ME522	High-performance Scientific computing High-Performance Scientific Computing	High-Performance Scientific Computing	Keep one entry
ME-591	ME591 ME591	Multidisciplinary Design Optimization Selected topics in Renewable Energy	Multidisciplinary Design Optimization	Different courses under one code - check which is current
ME-601	ME601 ME601 ME601	Finite Element Method Finite Element Method in Engg. Advanced Finite Element Methods	Finite Element Method	Different courses under one code - check which is current
ME-616	ME616 ME616	Dielectrics and Related Materials Convective Heat and mass Transfer	Convective Heat and Mass Transfer	Different courses under one code - check which is current
ME-618	ME618 ME618	Refrigeration and Air Conditioning Stealth Technology:Infrared Signatures	Stealth Technology: Infrared Signatures	Different courses under one code - check which is current
ME-622	ME622 ME622	Mechanics of Human Body Biomechanics of Musculoskeletal System	Biomechanics of Musculoskeletal System	Different courses under one code - check which is current
ME-633	ME633 ME633	Design of Energy Systems Design of Energy Systems	~ME 633: Design of Energy Systems	Keep one entry
PH-511	PH-511 PH511	Mathematical Physics Mathematical Physics	Mathematical Physics	Keep one entry
PH-513	PH513 PH513	Quantum Mechanics I Quantum Mechanics	Quantum Mechanics I	Different courses under one code - check which is current
PH-514	PH514 PH514	Electronics Electronics	Electronics	Keep one entry
PH-523	PH523 PH523	Condensed Matter Physics Condensed Matter Physics	Condensed Matter Physics	Keep one entry
PH-524	PH524 PH524	Atomic and Molecular Spectroscopy Atomic and Molecular Physics	Atomic and Molecular Physics	Different courses under one code - check which is current
PH-526	PH526 PH526	Seminar Research Project III	Research Project-III	Different courses under one code - check which is current
PH-527	PH527 PH527	Vacation Project I Research Project IV	Research Project-IV (Summer)	Different courses under one code - check which is current
PH-591	PH591 PH591	Selected Topics on Correlated Electron Systems Selected Topics in Introduction to Quantum Superposition, Quantum	Selected Topics on Correlated Electron Systems	Different courses under one code - check which is current
PH-613	PH613 PH613	Quantum Mechanics II Special Topics in Quantum Mechanics	Quantum Mechanics II	Different courses under one code - check which is current

C Titles to correct

Change the rows marked *Renamed* and *Typo*. Check the rows marked *Check* with the school first: the code may have been reused, or the minutes may hold the older title. Minor wording differences (spelling variants, “Lab” vs “Laboratory”) are left out.

Code	Title on site	Title in the minutes	Kind	Minutes reference
CY513	Reaction Dynamics, Kinetics and Catalysis	Chemical Kinetics and Reaction Dynamics	Renamed	59th BoA: revised
CY514	Chemical Thermodynamics and Electrochemistry	Chemical and Statistical Thermodynamics	Renamed	59th BoA: revised
EE623P	Practicum on digital control and electrical devices	Practicum on Digital Control of Power Electronics and Drives	Renamed	23rd Senate: renamed from EE-623P Practicum on Digital Control of Electrical Drives 1-0-3-
EN612	Structure-Property correlation in materials for Energy Applicatio	Structure-Property Correlations for Energy Applications	Renamed	39th BoA: revised from Structure-Property Correlation in Materials for Energy Application
IC101P	Reverse Engineering	Understanding Product Internals	Renamed	47th BoA: renamed from IC-101P Reverse Engineering
IC140	Graphics for Design	Engineering Graphics	Renamed	47th BoA: renamed from IC-140 Graphics for Design; 37th Senate: renamed from Graphics for
IC152	Computing and Data Science	Introduction to Python and Data Science	Renamed	47th BoA: renamed from IC-152 Computing and Data Science; 37th Senate: renamed from Compu
IC252	Data Science II	Probability and Statistics	Renamed	47th BoA: renamed from IC-252 Data Science II; 37th Senate: renamed from Data Science II
MA102	Mathematics -2	Mathematics II	Renamed	1st Adhoc Senate: revised
MB-531	Ethical and Legal aspects of Business	Legal and Ethical Aspects of Business	Renamed	64th BoA: revised
PH513	Quantum Mechanics I	Quantum Mechanics I	Renamed	64th BoA: revised
PH513	Quantum Mechanics	Quantum Mechanics I	Renamed	64th BoA: revised
PH524	Atomic and Molecular Spectroscopy	Atomic and Molecular Physics	Renamed	64th BoA: revised
PH613	Special Topics in Quantum Mechanics	Quantum Mechanics II	Renamed	64th BoA: revised
CE-404	Analysis Structure	Analysis of Structures	Typo	50th BoA (Jul 2023)
CS310	Introduction to Communicating Distributed Processes	Introduction to Communicating and Distributed Processes	Typo	15th BoA: credits_changed from 3-0-0-3; 12th Senate: credits_changed from CS-310 3-0-0-
CS402	Compiler Technology	Compiler Technology	Typo	4th Senate (May 2013)
EE-205	Electromagnetics Wave propagation	Electromagnetics and Wave Propagation	Typo	52nd BoA (Nov 2023)
EE551	Applied Photonics and for Scientists and Engineers	Applied Photonics for Scientists and Engineers	Typo	38th BoA (Jan 2021)
EE584	Power System Protwction	Power System Protection	Typo	37th BoA (Oct 2020)
HS107	Exploring Creative Arts form	Exploring Creative Art Forms	Typo	15th BoA (Dec 2016)
HS363	Post-war Germany: A Literaray Perspective	Post-War Germany: A Literary Perspective	Typo	45th BoA (Feb 2022)
HS624	Advance Organizational Psychology	Advanced Organizational Psychology	Typo	
IC-102P	Foundation of Design Practicum	Foundations of Design Practicum	Typo	50th BoA (Jul 2023)
IC121	Mechanics of Particles and wave	Mechanics of Particles and Waves	Typo	2nd Adhoc Senate (May 2012)
IK-504	Bhagavad Gita Comprehensive (3-0-0-3)	Bhagavad Gita - Comprehensive	Typo	50th BoA (Jul 2023)
ME507	Micro and Nanoscale Fluid Mechaincs	Micro and Nanoscale Fluid Mechanics	Typo	38th BoA (Jan 2021)
ME617	Mechanics of Composite Mateial	Mechanics of Composite Materials	Typo	9th Senate (May 2016)
BY512	Quantitative and Computational Biology	Computational Biology	Check	42nd Senate (Jan 2024)
CE354P	Building and Pavement Materials Laboratory	Construction Materials Lab	Check	36th BoA (Sep 2020)
CE587P	Industrial/Academic Internship	Industrial/Research Internship	Check	18th Senate (Oct 2018)
CE605	Engg. Seismology and hazards	Engineering Seismology and Seismic Hazard Assessment	Check	16th BoA (Feb 2017)
CS502P	Basics of Data Science	Basic Data Science Practicum	Check	22nd Senate (Jun 2019)

continued on the next page

Code	Title on site	Title in the minutes	Kind	Minutes reference
CS507	Advanced Data Structures and Algorithm	Advanced Computer Architectures	Check	18th BoA: revised from Advanced Computer Architecture 3-0-0-3; 14th Senate: renamed from
CS549	Computer Network Analysis	Performance Analysis of Computer Networks	Check	16th BoA (Feb 2017)
CY101	Chemistry-1	Chemistry Common Course	Check	9th BoA (Oct 2015)
CY511	Group Theory and Spectroscopy	Symmetry and Group Theory	Check	57th BoA (Oct 2024)
DP399P	Semester Internship	For 09 Credit Internship	Check	38th BoA (Jan 2021)
EE304	Communication theory	Communication Systems	Check	26th BoA (Oct 2018)
EE312P	Microelectronics Circuits Design Practicum	Microelectronics Practicum	Check	18th BoA (Sep 2017)
EE514	Feedback Control Design	Robust Control Systems	Check	11th Senate: renamed from EE-514 Introduction to Feedback Controls
EE519P	CMOS Digital IC design Practicum	CMOS Digital IC Design Laboratory	Check	21st BoA (Dec 2017)
EE532	Probability and Random Processes	System Design	Check	29th BoA (Mar 2019)
EE593	Selected Topics in Low Power VLSI Design	Low power VLSI Design	Check	15th Senate (Feb 2018)
EE611P	VLSI Fabrication Practicum	VLSI Fabrication Laboratory	Check	9th Senate (May 2016)
EE641	Advance Wireless Technologies	Next Generation Wireless Technologies	Check	36th BoA (Sep 2020)
HS481	International Economics	International Business Management	Check	54th BoA (May 2024)
HS510	Entrepreneurship Workshop	Essentials of Entrepreneurship	Check	25th BoA (Jul 2018)
HS522	Research Methodology to Social Science	Research Methodology for Humanities and Social Sciences	Check	50th BoA: credits_changed from HS-522 3-0-0-3; 42nd Senate: credits_changed from HS-522
HS524	India in 1950s	India in the 1950s: Biography of a Foundational Decade	Check	26th BoA (Oct 2018)
HS553	Field Study	Financial Inclusion in India	Check	16th Senate (Apr 2018)
HS601	Literary Methods: Theory and Interpretation	Environment and Resource Management	Check	3rd Ad-hoc Senate (Nov 2012)
HS654	Environmental Economics	Health Economics	Check	16th Senate (Apr 2018)
IC250	Programming and Data Structure Practicum	Data Structure and Algorithms	Check	25th BoA: discontinued; 17th Senate: discontinued
IK-501	Yoga Sutras	Patanjali Yoga Sutra	Check	50th BoA (Jul 2023)
IK-502	Introduction to Bio-signals	Biosignals	Check	50th BoA (Jul 2023)
IK-507	Neuroscience and Mental health	Music and Musopathy Foundation	Check	52nd BoA (Nov 2023)
MA511	Real and complex Analysis	Real Analysis	Check	30th BoA (Jun 2019)
MA521	Topology and Functional Analysis	Functional Analysis	Check	30th BoA (Jun 2019)
MA765	Fractional Differential Equations	Topics in Semigroup Theory	Check	2nd Adhoc Senate (May 2012)
MB-580	AI in Finance	AI for Finance	Check	52nd BoA (Nov 2023)
MB-592	MANAGEMENT SCIENCE IN PRACTICE – A MODELLING AND CASE STUDIES APP	Management Science in Practice	Check	52nd BoA (Nov 2023)
ME-100	Reverse Engg.	Reverse Engineering	Check	53rd BoA (Dec 2023)
ME-210P	Thermo-Fluids Lab	Fluid Mechanics Lab	Check	50th BoA (Jul 2023)
ME210	Fluid Mechanics	Hydraulics Engineering	Check	26th BoA (Oct 2018)
ME352	Finite Element Methods	Finite Element Methods in Engineering	Check	24th Senate: discontinued
ME591	Selected topics in Renewable Energy	Multidisciplinary Design Optimization	Check	
ME616	Dielectrics and Related Materials	Convective Heat and Mass Transfer	Check	38th BoA (Jan 2021)
ME618	Refrigeration and Air Conditioning	Stealth Technology: Infrared Signatures	Check	5th Senate (Oct 2013)
ME622	Mechanics of Human Body	Biomechanics of Musculoskeletal System	Check	18th BoA (Sep 2017)
PH519P	PG Project-II	Post Graduate Project-II	Check	27th BoA (Nov 2018)
PH526	Seminar	Research Project-III	Check	27th BoA (Nov 2018)
PH527	Vacation Project I	Research Project-IV (Summer)	Check	27th BoA (Nov 2018)
PH611	Nuclear and Particle Physics	Experimental Research Techniques	Check	29th BoA (Mar 2019)
PH706	Introduction to Stochastic Problems in Physics	Statistical Mechanics and Applications	Check	2nd Adhoc Senate (May 2012)

D Approved courses to add

578 courses approved in the BoA/Senate minutes that have no row on the site (change 4.11). *Syllabus*: **Ready** — the PDF to upload is Master Course List/Individual_Course_PDFs/<CODE>.pdf; otherwise where it can come from: *MoM extract* (cut from the minutes), *Master PDF* (the old course booklet), *Proposal PDF* (the course proposal), *Minutes only* (in the minutes, not yet cut),

Missing (ask the school). Titles are as written in the minutes.

Code	Title	L-T-P-C	First approved	Syllabus
AR-516	Introduction to Blockchain and Web3	3-0-0-3	54th BoA (May 2024)	Ready
AR-517	Introduction to Cyber security	3-0-0-3	54th BoA (May 2024)	Ready
AR-518	Advanced Blockchain and web3	3-0-0-3	56th BoA (Jul 2024)	Ready
AR-519	Robot Manipulators	credits: 3	57th BoA (Oct 2024)	Missing
AR-520	Design of Mechatronics Systems	2-0-2-3	48th Senate (Mar 2026)	Ready
AR-521	Control of Robotic Systems	3-0-0-3	48th Senate (Mar 2026)	Ready
AR-522	Robot Vision	3-0-0-3	48th Senate (Mar 2026)	Ready
AR-523	Robot Manipulators	2-1-0-3	48th Senate (Mar 2026)	Ready
AR-524	Robot Simulators	2-0-2-3	48th Senate (Mar 2026)	Ready

MB-571	Design Thinking	credits: 2	59th BoA (Apr 2025)	Missing
MB-572	Social Analytics	2-0-0-2	54th BoA (May 2024)	Ready
MB-573	Cloud Computing For Business	2-0-0-2	54th BoA (May 2024)	Ready
MB-574	Cyber Securities, Ethics and Privacy	2-0-0-2	54th BoA (May 2024)	Ready
MB-575	Negotiation Analysis	credits: 2	59th BoA (Apr 2025)	Missing
MB-576	Data Strategy	credits: 2	59th BoA (Apr 2025)	Missing
MB-577	AI Strategy and Implementation	credits: 2	59th BoA (Apr 2025)	Missing
MB-578	Leadership	credits: 2	59th BoA (Apr 2025)	Missing
MB-582	Consumer Behavior	2-0-0-2	54th BoA (May 2024)	Ready
MB-583	Digital marketing	2-0-0-2	54th BoA (May 2024)	Ready
MB-584	Supply Chain Management	2-0-0-2	54th BoA (May 2024)	Ready
MB-585	Supply Chain Analytics	2-0-0-2	59th BoA (Apr 2025)	Ready
MB-586	Advertising and Brand Management	2-0-0-2	59th BoA (Apr 2025)	Ready
MB-587	GenAI for Managers	2-0-0-2	62nd BoA (Jan 2026)	Ready
MB-600	Research Methodology	1-0-0-1	60th BoA (Jun 2025)	Ready
ME-206P	Mechanics of Solid Lab	0-0-2-1	61st BoA (Jan 2026)	Ready
ME-303P	Heat Transfer Lab	0-0-3-1	54th BoA (May 2024)	Ready
ME-316	Automotive Engine Design	3-0-0-3	57th BoA (Oct 2024)	Ready
ME-502	Nanomanufacturing	credits: 3	18th BoA (Sep 2017)	Master PDF
ME-503	Heat Transfer	credits: 3	50th BoA (Jul 2023)	Master PDF
ME-510	Advanced Manufacturing Processes	3-0-0-3	17th BoA (May 2017)	Ready
ME-515	Carbon Materials and Technology	3-0-0-3	35th BoA (Aug 2020)	Ready
ME-526	Programming Paradigm for Open-source Codes	2-0-2-3	54th BoA (May 2024)	Ready
ME-527	Biofluid Dynamics	3-0-0-3	57th BoA (Oct 2024)	Ready
ME-528	Thermal Management of Electronics	3-0-0-3	61st BoA (Jan 2026)	Ready
ME-530	Continuum Mechanics	3-0-0-3	59th BoA (Apr 2025)	Ready
ME-595	Experiential Learning in Composite Design, Manufacturing, Testing and Recycling	1-0-4-3	61st BoA (Jan 2026)	Ready
ME-598P	Post Graduate Project-I	credits: 16	38th BoA (Jan 2021)	Master PDF
ME-599P	Post Graduate Project-II	credits: 16	38th BoA (Jan 2021)	Master PDF
ME-600	Research Methodology	1-0-0-1	57th BoA (Oct 2024)	Ready

Code	Title	L-T-P-C	First approved	Syllabus
ME-612	Introduction to Bio-materials	credits: 3	9th BoA (Oct 2015)	Ready
ME-623	Fundamentals of Fracture Mechanics	credits: 3	9th Senate (May 2016)	Ready
ME-624	Convective Heat and Mass Transfer	credits: 3	26th BoA (Oct 2018)	Ready
ME-630	Machine Learning for Engineers	2-0-2-3	57th BoA (Oct 2024)	Ready
ME-642	Computational modelling of granular flows	3-0-2-4	60th BoA (Jun 2025)	Ready
ME-696P	Post Graduate Project II	0-0-28-14	38th BoA (Jan 2021)	Master PDF
ME-697P	Post Graduate Project III	0-0-32-16	38th BoA (Jan 2021)	Master PDF
MT-201	Physics of Solids	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-202	Applied Quantum Mechanics	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-203	Materials Synthesis and Characterization	3-0-2-4	57th BoA (Oct 2024)	Ready
MT-204	Thermodynamics and Kinetics of Materials	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-205	Functional Properties of Materials	3-0-2-4	57th BoA (Oct 2024)	Ready
MT-206	Extraction and Materials Processing	3-0-2-4	57th BoA (Oct 2024)	Ready
MT-301	Phase Transformation	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-302	Transport Phenomena	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-303	Computational Materials Science	3-0-2-4	57th BoA (Oct 2024)	Ready
MT-304	Mechanical Behaviour of Materials	3-0-2-4	57th BoA (Oct 2024)	Ready
MT-501	Energy Conversion and Storage Technologies	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-502	Recycling and Circular Economy	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-503	Semiconductor Materials and Devices	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-504	Powder Metallurgical Processing of Materials	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-505	Thin Film Technology	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-506	Biomaterials	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-507	Modelling and Simulations in Materials Science	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-508	Iron and Steel Making	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-509	Hydrogen Energy	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-510	Colloids and Interfaces	3-0-0-3	57th BoA (Oct 2024)	Ready
MT-511	Sensor Materials and Technologies	3-0-0-3	57th BoA (Oct 2024)	Ready
PH-001	Preparatory Physics - 1	3-1-0-4	50th BoA (Jul 2023)	Ready
PH-002	Preparatory Physics - 2	3-1-0-4	50th BoA (Jul 2023)	Ready
PH-411	Mathematical Physics	credits: 4	14th BoA (Sep 2016)	Missing
PH-413	Quantum Mechanics-I	credits: 4	14th BoA (Sep 2016)	Missing
PH-504	Organic Optoelectronics	3-0-0-3	2nd Adhoc Senate (May 2012)	Ready
PH-506	Project	credits: 3	2nd Adhoc Senate (May 2012)	Missing
PH-517	Research Project II	0-0-8-4	27th BoA (Nov 2018)	Ready
PH-518P	Post Graduate Project-I	0-0-6-3	27th BoA (Nov 2018)	Ready
PH-530	Cosmology - I	3-0-0-3	54th BoA (May 2024)	Ready
PH-550	Introduction to Quantum Optics	3-0-0-3	57th BoA (Oct 2024)	Ready
PH-559	Introduction to Quantum Optics	3-0-0-3	48th Senate (Mar 2026)	Missing
PH-579	Quantum Computation and Information	3-0-0-3	57th BoA (Oct 2024)	Ready
PH-600	Research Methodology	1-0-0-1	54th BoA (May 2024)	Ready
PH-602	Quantum Theory of Solids	3-0-0-3	26th BoA (Oct 2018)	Ready
PH-611P	Experimental Research Techniques	0-0-7-4	12th Senate (Mar 2017)	Ready
PH-612P	Research Practicum	0-0-6-3	12th Senate (Mar 2017)	Missing
PH-615P	Mini Thesis - I	0-0-8-4	27th BoA (Nov 2018)	Missing
PH-616P	Mini Thesis - II	0-0-16-8	50th BoA (Jul 2023)	Missing
PH-621P	Major Research Project	0-0-15-8	12th Senate (Mar 2017)	Missing
QS-501P	Experiments in Quantum Optics	0-0-5-3	54th BoA (May 2024)	Ready
QT-301	Survey of Quantum Technologies and Applications	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-302	Foundations of Quantum Technologies	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-303P	Basic Programming Lab	2-0-1-3	47th Senate (Sep 2025)	Ready
QT-304P	Basic Laboratory Course for Quantum Technologies	2-0-1-3	47th Senate (Sep 2025)	Ready
QT-405	Introduction to Quantum Computation	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-406	Introduction to Quantum Communication	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-407	Introduction to Quantum Sensing	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-408	Introduction to Quantum Materials	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-509	Engineering Foundations of Quantum Technologies	3-0-0-3	47th Senate (Sep 2025)	Ready

Code	Title	L-T-P-C	First approved	Syllabus
QT-510	Solid State Physics for Quantum Technologies	3-0-0-3	47th Senate (Sep 2025)	Ready
QT-511	Introduction to Quantum Optics	3-0-0-3	47th Senate (Sep 2025)	Ready
SC-600	Research Methodology	1-0-0-1	65th BoA (Aug 2026)	Ready
VL-201	Semiconductor Devices for Integrated Circuits	3-0-0-3	61st BoA (Jan 2026)	Ready
VL-211	Analog Circuit Design	3-0-2-4	61st BoA (Jan 2026)	Ready
VL-300	Reverse Engineering - E-Waste Management	0.5-0-0.5-1	59th BoA (Apr 2025)	Ready
VL-311	CMOS Processing and Practicum	3-0-2-4	59th BoA (Apr 2025)	Ready
VL-312	Electronics Systems Packaging (ESP)	3-0-0-3	61st BoA (Jan 2026)	Ready
VL-326	Fundamentals of Processor Architecture and SoC Design	3-0-2-4	61st BoA (Jan 2026)	Ready
VL-401	RTL Design and Verification	2-0-2-3	59th BoA (Apr 2025)	Ready
VL-402	RFIC Design	3-0-0-3	61st BoA (Jan 2026)	Ready
VL-404	CMOS Analog IC Design	3-0-2-4	64th BoA (May 2026)	Missing
VL-405	Design for Testability	3-0-2-4	61st BoA (Jan 2026)	Ready

E Courses to confirm before adding

239 courses that are in a curriculum booklet or the master course list but whose approval could not be confirmed from the minutes we have (the 40th, 43rd and 46th Senate minutes are not available).

Code	Title	L-T-P-C	Why it needs a check
BE-101	Reverse Engineering for Bioengineers		BoA recommended; Senate minutes not available
CE-553	Introduction to Earthquake Engineering	3-0-0-3	BoA recommended; Senate minutes not available
CE-603	Theory of Elasticity	3-0-0-3	BoA recommended; Senate minutes not available
CS-205	Paradigms of Programming	credits: 4	BoA recommended; Senate minutes not available
CS-404	Embedded Linux	credits: 3	BoA recommended; Senate minutes not available
CS-405	Verification of Reactive Systems	credits: 3	BoA recommended; Senate minutes not available
CS-580	Advanced Data Structure and Algorithms	credits: 4	BoA recommended; Senate minutes not available
CS-594	Introduction to Computer Graphics and Design	3-0-2-4	BoA recommended; Senate minutes not available
CS-599	Special Topics in Deep Neural Networks	credits: 2	BoA recommended; Senate minutes not available
CS-677	Soft Computing	credits: 3	BoA recommended; Senate minutes not available
CS-699	Special Topics in Deep Learning	credits: 2	BoA recommended; Senate minutes not available
EE-101P	Basic Electrical & Electronics Lab	credits: 2	BoA recommended; Senate minutes not available
EE-102	Introduction to Electronics	credits: 3	BoA recommended; Senate minutes not available
EE-211P	Analog Circuit Design Lab	0-0-2-1	BoA recommended; Senate minutes not available
EE-308	Solid State Devices	credits: 3	BoA recommended; Senate minutes not available
EE-530P	Practicum on Advanced Electric Drives		BoA recommended; Senate minutes not available
EE-533P	Programming Practicum	1-0-3-3	BoA recommended; Senate minutes not available
EE-535	Systems Design	0-0-4-2	BoA recommended; Senate minutes not available
EE-540	Wide Band Gap Devices in Power Electronics Applications	3-0-0-3	BoA recommended; Senate minutes not available
EE-580	Network Systems: Modelling and Analysis	3-0-0-3	BoA recommended; Senate minutes not available
EE-592P	Selected Topics in IoT	0-1-2-2	BoA recommended; Senate minutes not available
EE-693	Compressed Sensing and its Applications	credits: 3	BoA recommended; Senate minutes not available
EM-500P	Design Practicum	0-0-4-2	BoA recommended; Senate minutes not available
EM-602	Experiments in Materials Science	2-0-3-4	BoA recommended; Senate minutes not available
EM-604	Energy, Economics, Environment Laws and Policy	3-0-0-3	BoA recommended; Senate minutes not available
EM-652	Electrochemical Energy Storage	3-0-0-3	BoA recommended; Senate minutes not available
EM-653	Energy Harvesting	3-0-0-3	BoA recommended; Senate minutes not available
EM-654	Alternative Energy Sources for Transportation	3-0-0-3	BoA recommended; Senate minutes not available
EM-655	Hydrogen Storage and Production Systems	3-0-0-3	BoA recommended; Senate minutes not available
EM-656	Materials for Nuclear Power Plants	3-0-0-3	BoA recommended; Senate minutes not available
EN-601	Energy Sources and Power Plants	3-0-0-3	BoA recommended; Senate minutes not available
EN-602	Emerging Energy Sources	3-0-0-3	BoA recommended; Senate minutes not available
EN-603	Energy Storage Technologies	3-0-0-3	BoA recommended; Senate minutes not available
EN-605P	Energy Systems Laboratory	0-0-3-2	BoA recommended; Senate minutes not available
EN-606P	Research Practicum	2-0-2-3	BoA recommended; Senate minutes not available
EN-607	Modeling and Simulation of Energy Systems	2-0-2-3	BoA recommended; Senate minutes not available

F Points to confirm in the source documents

Differences found between the UG Curriculum booklet, the BoA/Senate minutes, the UG Ordinance 2026, the UG Handbook 2026 and the website while preparing this document. They do not stop the website changes, but the booklet and the Ordinance go to the BoA and Senate, so they are worth settling first.

F.1 Minutes and the UG Curriculum booklet

- IC-152 title.** The 47th BoA renamed IC-152 “Introduction to Python and Data Science”, but the UG Curriculum booklet still calls it “Computing and Data Science” in the five General Engineering specialisations (batches 2025 and 2026) and in Materials Science and Engineering (batch 2025).
- IC-201P in Quantum Science and Engineering (batch 2026).** Every other programme has IC-202P Design Practicum.
- IC-240 in Agricultural Engineering with Data Analytics (batch 2026).** It is called “Rigid Body Dynamics”; elsewhere it is “Mechanics of Rigid Bodies”.
- IC-XXX in Chemical Engineering with Data Analytics (batch 2026).** The IC Basket-II course “Material and Energy Balance” has no code yet.

5. **IC-181 title.** The minutes approve IC-181 as “Introduction to Consciousness and Holistic Wellbeing”; the booklet uses that title for five programmes of batch 2024 and “Indian Knowledge Systems” everywhere else. Change 4.2 uses “Indian Knowledge Systems”.
6. **IC-253 and IC-113 titles.** The minutes have “Programming and Data Structures” and “Complex and Vector Calculus”; the booklet has “Data Structures and Algorithms” and “Complex Variables and Vector Calculus”. Change 4.2 follows the booklet.
7. **AR-519 and AR-523.** The 48th Senate and the Minors booklet have AR-519 “Robot Manipulators”; the 64th BoA recoded AR-501 to AR-523, also “Robot Manipulators”; and the old Robotics minor list on the website shows “AR 519/EE 555 Intelligent Control System”. Change 4.11 adds AR-519 with the title in the minutes.
8. **Minors with no batch restriction.** In the Minors booklet these are shown as “All batches” in change 4.5.

F.2 UG Ordinance 2026, UG Handbook 2026 and the booklet

1. **ISTP name and L-T-P-C.** The UG Ordinance 2026 and the minutes say “Interactive Socio-Technical Practicum” (minutes: 0-0-8-4); the booklet and the website say “Interdisciplinary Socio-Technical Practicum”, 0-0-6-4. Change 4.4 uses the Ordinance name.
2. **MTP and internship codes.** The Ordinance (Table 3, Table 7) and the Handbook (4.3) use DP-498P / DP-499P for MTP and DP-010 for the vacation internship. The booklet gives each programme its own codes (CS-498P, CS-010, ...). Changes 4.2 and 4.4 use the Ordinance codes.
3. **161-credit programmes.** The Ordinance (Table 2 note) and the booklet agree that Electrical Engineering has 161 credits. The Handbook (4.2) says “Electrical Engineering and Quantum Technology each have a 161-credit plan”, but the booklet gives Quantum Science and Engineering (batch 2026) 160.
4. **Discipline Core / Elective split (Ordinance Table 4).** Seven branches differ from the batch-2026 booklet (Ordinance vs booklet): CSE 39/31 vs 39/27; DSAI 33/39 vs 33/33; Civil 49/21 vs 49/17; Engineering Physics 37/30 vs 37/29; Mathematics and Computing 55/15 vs 51/15; Quantum 44/24 vs 40/26; B.S. Chemical Sciences 62/24 vs 59/23 (and Table 5 says 62/26). Several Table 4 rows also add up to more than the 66 credits of Table 2.
5. **IC-202P exemptions.** Ordinance 4.2.5 exempts Bioengineering, Engineering Physics, Civil and B.S. Chemical Sciences from IC-202P. The batch-2026 booklet has IC-202P in Engineering Physics and Civil, and IC-201P in Quantum Science and Engineering.
6. **Semester credit limit.** Ordinance 4.2 says a maximum of 22 credits in a regular semester; the Handbook (3.4) says 12–25 (the Ordinance lists “Extension of semester-wise credit limit from 22 to 25” among its references).
7. **Honours, Mode B.** Ordinance 12.5 asks for an SCI/SCIE journal article or a granted patent; the Handbook (5.2) says a Q1 journal. Change 4.6 follows the Ordinance.
8. **Second Major timing.** Ordinance 14.4.2 says the extra courses are done after semester 5, 14.4.4 says from semester 6, and 14.10 says semesters 7 to 10.
9. **Where minor credits count.** The Minors booklet says minor courses count only as Free Electives; Ordinance 10.7 says the Humanities or Free Elective basket, as the curriculum prescribes. Change 4.5 follows the Ordinance.
10. **Contact numbers.** The Handbook gives Mr. Vishal Parmar’s phone as 01905-267055; the website staff list gives 267755, which is also the footer’s main number.
11. **Ordinance numbering.** Section 9 jumps from 9.5 to 9.11, and Table 2 is cited as the B.Tech. table while 4.2.11 introduces Table 5 for the B.S.; worth a clean-up before the Ordinance is notified.

F.3 The website

1. **Course booklet on the site.** The file behind “Download Course Booklet” could not be opened (the site stopped answering this computer during the check). Change 4.1 assumes it is the June 2025 compilation, the newest copy we hold; please confirm.
2. **UG Handbook file.** The site’s /pdf/admissions/UG_Academic_Handbook.pdf was last modified on 22 July 2026, a day after the UG Handbook 2026 was finalised, so it is probably the 2026 Handbook. Changes 3.2 and 6.3 link it on that basis; please confirm.
