

Bachelor of Technology — General Engineering - Open Specialisation

Table 1: General Engineering - Open Specialisation — B26 Credit Distribution

Division	Subdivision	Credits
IC Core Courses	IC Compulsory	39
	IC Basket	6
	IKS + HSS	15
Discipline Courses	Discipline Core	35*
	Discipline Electives (merged into Free Electives)	—
Electives	Free Electives (including merged DE pool)	53*
	MTP (4+4, equivalent as DE)	8
	ISTP (equivalent as FE)	4
Total		160

*EE-261 (Electrical System Around Us) and EE-201 (Electromechanics) are shown here at 3 credits each, as per the course catalogue; the programme brochure lists them at 5 and 4 credits respectively. If these are offered at the higher credits, the Discipline Core total rises accordingly and the Discipline Elective requirement falls by the same amount, so that $DC + DE = 66$ credits either way.

Aim for 20–25 credits this semester — top up the fixed core above with Discipline / Free Electives so the elective budget is covered on time.

Beyond the core courses above, students choose 53 credits of **Free Electives** — for this major the Discipline Elective and Free Elective pools are merged into a single pool — from across the institute, subject to the elective policy below.*

Elective Policy. There is no prescribed Discipline Elective list for this major. Students may choose electives from any department, provided that no more than 40% of their elective credits come from the Discipline Core list of any single named major. The Discipline Elective and Free Elective pools are merged into one pool of 53 credits of Free Electives, giving students maximum flexibility in course selection.

The following compulsory project components count toward the DE credit requirement; they are not selectable DE options.
